

## Safety data sheet

Revision: 28-07-2017  
Replaces: 14-10-2014  
Version: 01.01/GBR

---

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Trade name: LGHC 2

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended uses: Lubricating grease

#### 1.3. Details of the supplier of the safety data sheet

Supplier: SKF MAINTENANCE PRODUCTS  
P.O. Box 1008  
NL-3430 BA Nieuwegein  
The Netherlands  
Tel: +31 30 6307200  
Email: sebastien.david@skf.com  
WWW: www.skf.com

#### 1.4. Emergency telephone number

Members of the public: 111 (NHS 111 (Scotland: NHS 24))

---

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

CLP-classification (Regulation  
(EC) No 1272/2008):

The product shall not be classified as hazardous according to the classification and labelling rules for substances and mixtures.

Most serious harmful effects:

May cause slight irritation to the skin and eyes.

#### 2.2. Label elements

The product shall not be classified as hazardous according to the classification and labelling rules for substances and mixtures.

Supplemental information:

Safety data sheet available on request.

#### 2.3. Other hazards

Assessment to determine PBT and vPvB has not been made.

---

### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

| Registration number | CAS/EC Number | Substance                     | CLP-classification (Regulation (EC) No 1272/2008) | w/w% | Note |
|---------------------|---------------|-------------------------------|---|------|------|
| .                   | 84418-50-8    | Naphthenic acids, zinc salts, | Aquatic Chronic 3;H412                            | <2,5 | .    |
| .                   | 282-762-6     | basic                         | .   | .    | .    |

Please see section 16 for the full text of H-phrases.

---

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

|                    |   |
|--------------------|---|
| Inhalation:        | Seek fresh air.   |
| Ingestion:         | Wash out mouth thoroughly and drink 1-2 glasses of water in small sips. Seek medical advice in case of persistent discomfort. |
| Skin:              | Remove contaminated clothing. Wash skin with soap and water.  |
| Eyes:              | Flush with water (preferably using eye wash equipment) until irritation subsides. Seek medical advice if symptoms persist.    |
| Other information: | When obtaining medical advice, show the safety data sheet or label.   |

#### 4.2. Most important symptoms and effects, both acute and delayed

May cause slight irritation to the skin and eyes.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptoms. No special immediate treatment required.

---

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

Suitable extinguishing media Extinguish with powder, foam, carbon dioxide or water mist. Use water or water mist to cool non-ignited stock.

Unsuitable extinguishing media Do not use water stream, as it may spread the fire.

#### 5.2. Special hazards arising from the substance or mixture

Not flammable, but combustible. Product decomposes in fire conditions or when heated to high temperatures, and inflammable and toxic gases may be released.

#### 5.3. Advice for firefighters

Wear Self-Contained Breathing Apparatus (SCBA) with chemical resistant gloves. Move containers from danger area if it can be done without risk. Avoid inhalation of vapour and flue gases – seek fresh air.

---

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Wear gloves.

For emergency responders: In addition to the above: Normal protective clothing equivalent to EN 469 is recommended.

#### 6.2. Environmental precautions

Prevent spillage from entering drains and/or surface water.

#### 6.3. Methods and material for containment and cleaning up

Contain and absorb spill with sand or other absorbent material and transfer to suitable waste containers. Wipe up minor spills with a cloth.

#### 6.4. Reference to other sections

See section 8 for type of protective equipment. See section 13 for instructions on disposal.

---

### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Running water and eye wash equipment should be available. Wash hands before breaks, before using restroom facilities, and at the end of work.

#### 7.2. Conditions for safe storage, including any incompatibilities

The product should be stored safely, out of reach of children and away from food, animal feeding stuffs, medicines, etc. Store at temperatures below 45°C. Do not store with the following: Strong oxidisers. Do not expose to heat (e.g. sunlight).

#### 7.3. Specific end use(s)

None.

---

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

Legal basis: EH40/2005 Workplace exposure limits. Last amended December 2011.

Contains no substances subject to reporting requirements.

#### 8.2. Exposure controls

Appropriate engineering controls: Wear the personal protective equipment specified below.

|  |  |
|--|--|
| Personal protective equipment, eye/face protection:    | Not required.  |
| Personal protective equipment, skin protection:        | Wear gloves. Type of material and thickness: Nitrile rubber. $\geq 0,38$ mm. Penetration time: $>8$ hours. 0,1 mm. Light use (small volume, shortterm contact (below 10 min.)): Gloves must conform to EN 374. |
| Personal protective equipment, respiratory protection: | Not required.<br>In case of risk of formation of spray mist, wear respiratory protective equipment with P2 filter.   |
| Environmental exposure controls:                       | Ensure compliance with local regulations for emissions.  |

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|  |   |
|--|---|
| State:                                   | Fat.  |
| Colour:                                  | Beige   |
| Odour:                                   | Ingen data  |
| Odour threshold:                         | Ingen data  |
| pH (solution for use):                   | Ingen data  |
| pH (concentrate):                        | Ingen data  |
| Melting point/freezing point:            | Ingen data  |
| Initial boiling point and boiling range: | N/A   |
| Flash point:                             | $>150^{\circ}\text{C}$ ( $>302^{\circ}\text{F}$ ) |
| Evaporation rate:                        | Ingen data  |
| Flammability (solid, gas):               | Ingen data  |
| Upper/lower flammability limits:         | Ingen data  |
| Upper/lower explosive limits:            | Ingen data  |
| Vapour pressure:                         | Ingen data  |
| Vapour density:                          | Ingen data  |
| Relative density:                        | $<1$ g/cm <sup>3</sup> @ 25 °C                    |
| Solubility:                              | Ingen data  |
| Partition coefficient n-octanol/water:   | Ingen data  |
| Auto-ignition temperature:               | Ingen data  |
| Decomposition temperature:               | Ingen data  |
| Viscosity:                               | Ingen data  |
| Explosive properties:                    | Ingen data  |
| Oxidising properties:                    | Ingen data  |

### 9.2. Other information

None.

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Reacts with the following: Strong oxidisers.

### 10.2. Chemical stability

The product is stable when used in accordance with the supplier's directions.

### 10.3. Possibility of hazardous reactions

None known.

### 10.4. Conditions to avoid

Avoid heating and contact with ignition sources.

### 10.5. Incompatible materials

Strong oxidisers.

### 10.6. Hazardous decomposition products

Product decomposes in fire conditions or when heated to high temperatures, and inflammable and toxic gases may be released.

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

Acute toxicity - oral: The product does not have to be classified. Based on existing data, the classification criteria are deemed not to have been met. Ingestion may cause discomfort.

|  |   |
|--|---|
|  | LGHC 2: LD50: 6308 mg/kg  |
|  | 84418-50-8: Rat: LD50 = 4920 mg/kg  |
| Acute toxicity - dermal:                         | The product does not have to be classified. Based on existing data, the classification criteria are deemed not to have been met.<br>LGHC 2: LD50: 3735 mg/kg      |
| Acute toxicity - inhalation:                     | The product does not have to be classified. Based on existing data, the classification criteria are deemed not to have been met.<br>LGHC 2: LC50(Mist): 11,4 mg/l |
| Skin corrosion/irritation:                       | The product does not have to be classified. Test data are not available. May cause slight irritation.   |
| Serious eye damage/eye irritation:               | The product does not have to be classified. Test data are not available. May cause eye irritation.  |
| Respiratory sensitisation or skin sensitisation: | The product does not have to be classified. Test data are not available.  |
| Germ cell mutagenicity:                          | The product does not have to be classified. Test data are not available.  |
| Carcinogenic properties:                         | The product does not have to be classified. Test data are not available.  |
| Reproductive toxicity:                           | The product does not have to be classified. Test data are not available.  |
| Single STOT exposure:                            | The product does not have to be classified. Test data are not available.  |
| Repeated STOT exposure:                          | The product does not have to be classified. Test data are not available.  |
| Aspiration hazard:                               | The product does not have to be classified. Test data are not available.  |
| Other toxicological effects:                     | None known.   |

---

## SECTION 12: Ecological information

### 12.1. Toxicity

The product does not have to be classified. Test data are not available. The product contains small quantities of environmentally hazardous substances.

### 12.2. Persistence and degradability

Not expected to be biodegradable. Test data are not available.

### 12.3. Bioaccumulative potential

No bioaccumulation expected. Test data are not available.

### 12.4. Mobility in soil

Not expected to be mobile in soil. Test data are not available.

### 12.5. Results of PBT and vPvB assessment

No assessment has been made.

### 12.6. Other adverse effects

Oil products may cause soil and water pollution.

German water pollution classification (WGK): 1

---

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Avoid discharge to drain or surface water.

Uncleansed packaging is to be disposed of via the local waste-removal scheme. Empty, cleansed packaging should be disposed of for recycling.

Absorbent/cloth contaminated with the product: EWC code: 15 02 03 Absorbents, filter materials, wiping cloths and protective clothing other than those mentioned in 15 02 02. Contact the local authorities.

EWC code: Depends on line of business and use, for instance 13 08 99\* wastes not otherwise specified

---

#### SECTION 14: Transport information

The product is not covered by the rules for transport of dangerous goods.

14.1. UN number -

14.2. UN proper shipping name -

14.3. Transport hazard class(es) -

14.4. Packing group -

14.5. Environmental hazards -

14.6. Special precautions for user -

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code -

---

#### SECTION 15: Regulatory information

##### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Special provisions: None.

##### 15.2. Chemical safety assessment

Chemical safety assessment has not been performed.

---

#### SECTION 16: Other information

Changes have been made in the following sections: 1, 3, 6, 7, 8, 9, 11, 12

Abbreviation explanations: PBT: Persistent, Bioaccumulative and Toxic  
vPvB: Very Persistent and Very Bioaccumulative  
STOT: Specific Target Organ Toxicity

Classification method: Calculation based on the hazards of the known components.

H-phrases: H412 Harmful to aquatic life with long lasting effects.

Training: A thorough knowledge of this safety data sheet should be a prerequisite condition.

Other information: This safety data sheet has been prepared for and applies to this product only. It is based on our current knowledge and the information that the supplier was able to provide about the product at the time of preparation. The safety data sheet complies with applicable law on preparation of safety data sheets in accordance with 1907/2006/EC (REACH) as subsequently changed.

---
