

# Safety Data Sheet according to (EC) No 1907/2006 as amended

Page 1 of 32

SDS No.: 153618

V016.1 Revision: 30.08.2024

printing date: 15.04.2025

Replaces version from: 14.05.2024

LOCTITE AA 3494 LC known as LOCTITE 3494 VIS/UV

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

LOCTITE AA 3494 LC known as LOCTITE 3494 VIS/UV

UFI: GTH5-YX77-720U-M0R2

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: Acrylic Adhesive

#### 1.3. Details of the supplier of the safety data sheet

Henkel Ltd Adhesives Wood Lane End

HP2 4RQ Hemel Hempstead

Great Britain

Phone: +44 (1442) 278000

SDSinfo.Adhesive@henkel.com

For Safety Data Sheet updates please visit our website www.mysds.henkel.com or www.henkel-adhesives.com.

### 1.4. Emergency telephone number

24 Hours Emergency Tel: +44 (0)1442 278497

### **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

### Classification (CLP):

Skin irritation Category 2

H315 Causes skin irritation.

Serious eye damage Category 1

H318 Causes serious eye damage.

Skin sensitizer Category 1

H317 May cause an allergic skin reaction.

Toxic to reproduction Category 1B

H360F May damage fertility.

Specific target organ toxicity - single exposure Category 3

H335 May cause respiratory irritation.

Target organ: respiratory tract irritation

Acute hazards to the aquatic environment Category 1

H400 Very toxic to aquatic life.

Chronic hazards to the aquatic environment Category 1

H410 Very toxic to aquatic life with long lasting effects.

SDS No.: 153618

#### 2.2. Label elements

#### Label elements (CLP):

Hazard pictogram:

Contains Isobornyl acrylate

2-Hydroxyethyl methacrylate

Acrylic acid

Hydroxypropyl methacrylate

Diphenyl-2,4,6-trimethylbenzoyl phosphine oxide

2-Propenoic acid, 2-methyl-, 2-(2-hydroxyethoxy)ethyl ester

Signal word: Danger

**Hazard statement:** H315 Causes skin irritation.

H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H335 May cause respiratory irritation.

H360F May damage fertility.

H410 Very toxic to aquatic life with long lasting effects.

**Supplemental information** Restricted to professional users.

**Precautionary statement:** P201 Obtain special instructions before use.

**Prevention** P261 Avoid breathing vapors.

P273 Avoid release to the environment.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

**Precautionary statement:** P302+P352 IF ON SKIN: Wash with plenty of soap and water.

**Response** P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing.

P308+P313 IF exposed or concerned: Get medical advice/attention. P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

### 2.3. Other hazards

None if used properly.

Care should be taken during the cure of these products by UV radiation to avoid exposure of the skin and especially of the eyes to direct or reflected UV radiation as long term effects could be harmful.

Following substances are present in a concentration ≥ the concentration limit for depiction in Section 3 and fulfill the criteria for PBT/vPvB, or were identified as endocrine disruptor (ED):

This mixture does not contain any substances in a concentration  $\geq$  the concentration limit for depiction in Section 3 that are assessed to be a PBT, vPvB or ED.

# **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

SDS No.: 153618 V016.1

# Declaration of the ingredients according to CLP (EC) No 1272/2008:

| Hazardous components CAS-No. EC Number   | Concentration | Classification   | Specific Conc. Limits, M-<br>factors and ATEs  | Add.<br>Information |

SDS No.: 153618

For full text of the H - statements and other abbreviations see section 16 "Other information".

# **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

Inhalation:

Move to fresh air. If symptoms persist, seek medical advice.

Consideration should be given to the possible effects of a faulty UV source (Stray radiation, ozone).

Skin contact:

Rinse with running water and soap.

Obtain medical attention if irritation persists.

Eve contact

Rinse immediately with plenty of running water (for 10 minutes), seek medical attention from a specialist.

Ingestion:

Rinse mouth, drink 1-2 glasses of water, do not induce vomiting, consult a doctor.

#### 4.2. Most important symptoms and effects, both acute and delayed

RESPIRATORY: Irritation, coughing, shortness of breath, chest tightness.

After eye contact: Corrosive, may cause permanent damage to eyes (impairment of vision).

SKIN: Redness, inflammation.

SKIN: Rash, Urticaria.

### 4.3. Indication of any immediate medical attention and special treatment needed

See section: Description of first aid measures

### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

# Suitable extinguishing media:

Carbon dioxide, foam, powder

### Extinguishing media which must not be used for safety reasons:

High pressure waterjet

### 5.2. Special hazards arising from the substance or mixture

In the event of a fire, carbon monoxide (CO), carbon dioxide (CO2) and nitrogen oxides (NOx) can be released.

#### 5.3. Advice for firefighters

Wear self-contained breathing apparatus and full protective clothing, such as turn-out gear.

#### **Additional information:**

In case of fire, keep containers cool with water spray.

### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with skin and eyes.

Wear protective equipment.

Ensure adequate ventilation.

Keep away from sources of ignition.

#### 6.2. Environmental precautions

Do not empty into drains / surface water / ground water.

SDS No.: 153618

#### 6.3. Methods and material for containment and cleaning up

Dispose of contaminated material as waste according to Section 13.

For small spills wipe up with paper towel and place in container for disposal.

For large spills absorb onto inert absorbent material and place in sealed container for disposal.

#### 6.4. Reference to other sections

See advice in section 8

# **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

Avoid skin and eye contact.

See advice in section 8

Ventilation will remove any ozone that may be produced by the ultra violet lamp

#### Hygiene measures:

Good industrial hygiene practices should be observed.

Do not eat, drink or smoke while working.

Wash hands before work breaks and after finishing work.

### 7.2. Conditions for safe storage, including any incompatibilities

Refer to Technical Data Sheet.

# 7.3. Specific end use(s)

Acrylic Adhesive

V016.1

SDS No.: 153618

# **Biological Exposure Indices:**

None

# 8.2. Exposure controls:

Engineering controls:

Ensure good ventilation/extraction.

UV lamp should be designed, installed and operated in such a way as to eliminate exposure of the skin and eyes to stray radiation

Respiratory protection:

Ensure adequate ventilation.

An approved mask or respirator fitted with an organic vapour cartridge should be worn if the product is used in a poorly ventilated area

Filter type: A (EN 14387)

SDS No.: 153618

Hand protection:

Chemical-resistant protective gloves (EN 374).

Suitable materials for short-term contact or splashes (recommended: at least protection index 2, corresponding to > 30 minutes permeation time as per EN 374):

nitrile rubber (NBR; >= 0.4 mm thickness)

Suitable materials for longer, direct contact (recommended: protection index 6, corresponding to > 480 minutes permeation time as per EN 374):

nitrile rubber (NBR; >= 0.4 mm thickness)

This information is based on literature references and on information provided by glove manufacturers, or is derived by analogy with similar substances. Please note that in practice the working life of chemical-resistant protective gloves may be considerably shorter than the permeation time determined in accordance with EN 374 as a result of the many influencing factors (e.g. temperature). If signs of wear and tear are noticed then the gloves should be replaced.

Eye protection:

Safety glasses with sideshields or chemical safety goggles should be worn if there is a risk of splashing. Protective eye equipment should conform to EN166.

Skin protection:

Wear suitable protective clothing.

Protective clothing should conform to EN 14605 for liquid splashes or to EN 13982 for dusts.

Advices to personal protection equipment:

The information provided on personal protective equipment is for guidance purposes only. A full risk assessment should be conducted prior to using this product to determine the appropriate personal protective equipment to suit local conditions. Personal protective equipment should conform to the relevant EN standard.

### **SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

Delivery form liquid
Colour Clear
Odor irritating
Physical state liquid

Melting point Not applicable, Product is a liquid

Initial boiling point  $> 140 \,^{\circ}\text{C} (> 284 \,^{\circ}\text{F})$ 

Flammability The product is not flammable.

Explosive limits

Not applicable, The product is not flammable. Flash point

87,8 °C (190.04 °F); Tagliabue closed cup

Auto-ignition temperature 485 °C (905 °F

Decomposition temperature

Not applicable, Substance/mixture is not self-reactive, no organic peroxide and does not decompose under foreseen conditions of use

Not applicable, Product is non-soluble (in water).

pH Not applicable
Viscosity (kinematic) > 20,5 mm2/s

(40 °C (104 °F); )

Solubility (qualitative) Slight

(20 °C (68 °F); Solvent: Water)

Solubility (qualitative) Not determined

(Solvent: Acetone)

Partition coefficient: n-octanol/water Not applicable

Mixture

Vapour pressure < 10 mm hg

(24 °C (75.2 °F))

Vapour pressure < 300 mbar;no method / method unknown

(50 °C (122 °F))

Density 1,024 g/cm3 None

(20 °C (68 °F))

Relative vapour density: 1

 $(20 \, ^{\circ}\text{C})$ 

Particle characteristics Not applicable
Product is a liquid

#### 9.2. Other information

SDS No.: 153618

# **SECTION 10: Stability and reactivity**

### 10.1. Reactivity

Reacts with strong oxidants. Acids.

Reducing agents.

Strong bases.

# 10.2. Chemical stability

Stable under recommended storage conditions.

### 10.3. Possibility of hazardous reactions

See section reactivity

#### 10.4. Conditions to avoid

Stable under normal conditions of storage and use.

Protect from direct sunlight.

Avoid contact with acids and oxidizing agents.

# 10.5. Incompatible materials

See section reactivity.

# 10.6. Hazardous decomposition products

carbon oxides.

Hydrocarbons

nitrogen oxides

Rapid polymerisation may generate excessive heat and pressure.

SDS No.: 153618

# **SECTION 11: Toxicological information**

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

# Acute oral toxicity:

| Hazardous substances   | Value | Value          | Species | Method  |
|--|-------|----------------|---------|---|
| CAS-No.  | type  |                | -       |   |
| Isobornyl acrylate 5888-33-5   | LD50  | 4.350 mg/kg    | rat     | not specified   |
| Isobornyl methacrylate 7534-94-3   | LD50  | 3.160 mg/kg    | rat     | not specified   |
| 2-Hydroxyethyl<br>methacrylate<br>868-77-9                                       | LD50  | 5.564 mg/kg    | rat     | FDA Guideline   |

### 12.5. Results of PBT and vPvB assessment

The table below presents the data of the classified substances present in the mixture.

| Hazardous substances                         | PBT / vPvB   |
|--|--|
| CAS-No.                                      |  |
| Isobornyl acrylate                           | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 5888-33-5                                    | Bioaccumulative (vPvB) criteria.   |
| Isobornyl methacrylate                       | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 7534-94-3                                    | Bioaccumulative (vPvB) criteria.   |
| 2-Hydroxyethyl methacrylate                  | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 868-77-9                                     | Bioaccumulative (vPvB) criteria.   |
| Acrylic acid                                 | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 79-10-7                                      | Bioaccumulative (vPvB) criteria.   |
| Hydroxypropyl methacrylate                   | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 27813-02-1                                   | Bioaccumulative (vPvB) criteria.   |
| [3-(2,3-Epoxypropoxy)propyl]trimethoxysilane | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 2530-83-8                                    | Bioaccumulative (vPvB) criteria.   |
| Diphenyl-2,4,6-trimethylbenzoyl phosphine    | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| oxide  | Bioaccumulative (vPvB) criteria.   |
| 75980-60-8                                   |  |
| methacrylic acid                             | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 79-41-4                                      | Bioaccumulative (vPvB) criteria.   |
| Camphene                                     | Not fulfilling Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very |
| 79-92-5                                      | Bioaccumulative (vPvB) criteria.   |

# 12.6. Endocrine disrupting properties

not applicable

# 12.7. Other adverse effects

No data available.

# **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

SDS No.: 153618

#### Product disposal:

Dispose of in accordance with local and national regulations.

Do not empty into drains / surface water / ground water.

#### Disposal of uncleaned packages:

After use, tubes, cartons and bottles containing residual product should be disposed of as chemically contaminated waste in an authorised legal land fill site or incinerated.

#### Waste code

08 04 09\* waste adhesives and sealants containing organic solvents and other dangerous substances

The valid EWC waste code numbers are source-related. The manufacturer is therefore unable to specify EWC waste codes
for the articles or products used in the various sectors. The EWC codes listed are intended as a recommendation for users. We
will be happy to advise you.

# **SECTION 14: Transport information**

#### 14.1. UN number or ID number

| 3082 |
|------|
| 3082 |
| 3082 |
| 3082 |
| 3082 |
|      |

### 14.2. UN proper shipping name

| ADR | ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQU | JID, N.O.S. ( | Isobornyl |
|-----|---|---------------|-----------|
|-----|---|---------------|-----------|

acrylate)

RID ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Isobornyl

#### 14.5. Environmental hazards

| ADR  | Environmentally Hazardous |
|------|---------------------------|
| RID  | Environmentally Hazardous |
| ADN  | Environmentally Hazardous |
| IMDG | Marine Pollutant          |

IATA Environmentally Hazardous

# 14.6. Special precautions for user

ADR not applicable

SDS No.: 153618

Tunnelcode:
RID not applicable
ADN not applicable
IMDG not applicable
IATA not applicable

The transport classifications in this section apply generally to packed and bulk goods alike. For containers with a net volume of no more than 5 L for liquid substances or a net mass of no more than 5 kg for solid substances per individual or inner package, the exemptions SP 375 (ADR), A197 (IATA), 2.10.2.7 (IMDG), NZ 4.3(10) may be applied, which can result in a deviation from the transport classification for packed goods.

#### 14.7. Maritime transport in bulk according to IMO instruments

not applicable

# **SECTION 15: Regulatory information**

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Ozone Depleting Substance (ODS) (Regulation (EC) No 1005/2009): Not applicable Prior Informed Consent (PIC) (Regulation (EU) No 649/2012): Not applicable Persistent organic pollutants (Regulation (EU) 2019/1021): Not applicable

VOC content < 5,00 % (2010/75/EC)

#### 15.2. Chemical safety assessment

A chemical safety assessment has not been carried out.

SDS No.: 153618

### **SECTION 16: Other information**

The labelling of the product is indicated in Section 2. The full text of all abbreviations indicated by codes in this safety data sheet are as follows:

H226 Flammable liquid and vapour.

H228 Flammable solid.

H302 Harmful if swallowed.

H311 Toxic in contact with skin.

H312 Harmful in contact with skin.

H314 Causes severe skin burns and eye damage.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H318 Causes serious eye damage.

H319 Causes serious eye irritation.

H332 Harmful if inhaled.

H335 May cause respiratory irritation.

H360Fd May damage fertility. Suspected of damaging the unborn child.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

H411 Toxic to aquatic life with long lasting effects.

H412 Harmful to aquatic life with long lasting effects.

ED: Substance identified as having endocrine disrupting properties

EU OEL: Substance with a Union workplace exposure limit
EU EXPLD 1: Substance listed in Annex I, Reg (EC) No. 2019/1148
EU EXPLD 2 Substance listed in Annex II, Reg (EC) No. 2019/1148
SVHC: Substance of very high concern (REACH Candidate List)

PBT: Substance fulfilling persistent, bioaccumulative and toxic criteria

PBT/vPvB: Substance fulfilling persistent, bioaccumulative and toxic plus very persistent and very

bioaccumulative criteria

vPvB: Substance fulfilling very persistent and very bioaccumulative criteria

#### **Further information:**

This Safety Data Sheet has been produced for sales from Henkel to parties purchasing from Henkel, is based on Regulation (EC) No 1907/2006 and provides information in accordance with applicable regulations of the European Union only. In that respect, no statement, warranty or representation of any kind is given as to compliance with any statutory laws or regulations of any other jurisdiction or territory other than the European Union. When exporting to territories other than the European Union, please consult with the respective Safety Data Sheet of the concerned territory to ensure compliance or liaise with Henkel's Product Safety and Regulatory Affairs Department (SDSinfo.Adhesive@henkel.com) prior to export to other territories than the European Union.

This information is based on our current level of knowledge and relates to the product in the state in which it is delivered. It is intended to describe our products from the point of view of safety requirements and is not intended to guarantee any particular properties.

#### Dear Customer,

Henkel is committed to creating a sustainable future by promoting opportunities along the entire value chain. If you would like to contribute by switching from a paper to the electronic version of SDS, please contact the local Customer Service representative. We recommend to use a non-personal email address (e.g. SDS@your\_company.com).

Relevant changes in this safety data sheet are indicated by vertical lines at the left margin in the body of this document. Corresponding text is displayed in a different color on shadowed fields.
