Description

Self-Grip discs have a quick release backing that allows fast and easy disc changing, increasing performance by minimising downtime. Made with premium abrasive grains for excellent cutting action providing a very homogenous and high quality finish. Depending on the grit size, Norton self-grip discs are ideal for preparing primed and painted surfaces, stripping primer, varnish and paint, sanding plastic and fibreglass, light weld blending and deburring and sanding bare wood.

Features & Benefits

Aluminium oxide abrasive for roughing, intermediate sanding and finishing of solid wood on floor and furniture applications

High performance aluminium oxide abrasive disc ideal for roughing, intermediate sanding and finishing of solid wood

Semi-open / open coat (depending on grit size) reduces clogging on the disc for longer life

Finer grits are ideal for polishing metal, plastic and leather, smoothing filler and sanding primer, within vehicle repair markets

Anti-static properties of the disc enable excellent surface quality
