

# Cup brush with thread, knotted wire

## BT 600 Z

### Product benefit

For aggressive brushing work on large, flat surfaces - For preparing metal surfaces before varnishing - Stable knotted wire design for easy cleaning and removal of slag, rust, scale and concrete residues

### Application

|                 |   |
|-----------------|---|
| Steel           | ● |
| Stainless steel | ● |

### Applications

- ▶ Plant engineering
- ▶ Apparatus and container manufacturing
- ▶ Stainless steel processing industry
- ▶ Railing construction
- ▶ Metal construction
- ▶ Steel construction
- ▶ Locksmith's shop
