MULTI-TOOL ACCESSORIES

MULTI FIT-SHANK
Suitable for DEWALT multi-tool DWE315 and DCS355 (as well as for all common oscillating tools Fein® (except SuperCut i Starlock/Starlock Plus), Bosch® and Makita®).

OPTIMIZED CARBIDE GRAIN
For a longer effective material removal (DT20718, DT20719).

TITANIUM COATED CUTTING SURFACES
For extended durability and durability of accessories (DT20702, DT20707, DT20709, DT20711 only).

QUICKWAVE-DESIGN
A special design for faster joints separating (only DT20718).

SAWS

Article number	Description	Min. order qty.	Pack qty. (pcs.)
DT20701-QZ	BiM saw blade 43x30 mm For use in wood, wood with nails, plastics and plasterboard	1	1
DT20702-QZ	BiM-Titan Saw Blade 55x44 mm For use in wood, wood with nails, plastics and plasterboard	1	1
DT20703-QZ	BiM saw blade 67x30 mm For use in hardwood. Suitable for plastics and plasterboard	1	1
DT20704-QZ	BiM saw blade 43x30 mm For fast cuts in wood, plastics and plasterboard. High cutting speed	1	1
DT20705-QZ	BiM saw blade 43x65 mm For fast cuts in wood, plastics and plasterboard. High cutting speed	1	1
DT20706-QZ	BiM detail saw blade 43x10 mm For cut-outs and recesses in wood, plastic and plasterboard	1	1
DT20707-QZ	Titanium metal saw blade 43x30 mm For use in metal, wood, wood with nails, plastics and plasterboard	1	1
DT20708-QZ	BiM segment saw blade 100 mm For use in wood, wood with nails, plastics and plasterboard	1	1
DT20709-QZ	Titanium segment saw blade 100 mm For use in wood, wood with nails, plastics and plasterboard	1	1
DT20710-QZ	BiM segment saw blade 100 mm, cranked Suitable for flush cuts in wood, wood with nails, plastics and plasterboard	1	1
DT20711-QZ	Titanium segment saw blade 100 mm, cranked For use in wood, wood with nails, plastics and plasterboard	1	1
DT20740-QZ	Japan saw blade 32 mm - HCS cut surfaces for use in hardwood	1	1
DT20741-QZ	Japanese saw blade 64 mm - HCS surfaces for use in hardwood	1	1

CUT/FILL/SCRAPE

Article number	Description	Min. order qty.	Pack qty. (pcs.)
DT20712-QZ	Multi-material cutting blade 100 mm For cutting roof shingles, plastic, foam, rubber, cardboard, leather, carpet floor etc.	1	1
DT20714-QZ	Solid filler 52 mm For removing e.g. Adhesive residues, carpeting, tile adhesive, mortar, concrete residues	1	1
DT20716-QZ	Flexible spatula 35 mm To remove e.g. silicone joints, soft carpet adhesive residues, paint residues	1	1

TILE AND JOINTS PROCESSING

Article number	Description	Min. order qty.	Pack qty. (pcs.)
DT20717-QZ	Hard metal Segment saw blade 95 mm, 3 mm Cutting width For milling fine tile joints and slits in plaster or similar materials.	1	1
DT20718-QZ	Carbide segment saw blade 95mm, 5mm cutting width For cutting gross tile joints and cracks in plaster or similar materials; Special Tough grain hard metal cutting for faster joints separating.	1	1
DT20719-QZ	Carbide rasp For coarse grinding of tile adhesives, concrete, and wood. Optimized carbide grain size for effective material removal.	1	1
DT20739-QZ	Diamond saw blade 75x60 mm, cutting width 2.4 mm ideally suited for milling tile joints and cracks in plaster or similar materials; extra long durability.	1	1

GRINDING

Article number	Description	Min. order qty.	Pack qty. (pcs.)
DT20700-QZ	Sanding plate with suction	1	1
DT3090-QZ	Triangular abrasive paper 93x93 mm, K40	10	10
DT3091-QZ	Triangular abrasive paper 93x93 mm, K60	10	10
DT3092-QZ	Triangular abrasive paper 93x93 mm, K80	10	10
DT3093-QZ	Triangular abrasive paper 93x93 mm, K120	10	10
DT3094-QZ	Triangular abrasive paper 93x93 mm, K180	10	10
DT3095-QZ	Triangular abrasive paper 93x93 mm, K240	10	10
DTM3092-QZ	EXTREME triangle abrasive mesh 93x93 mm, K80	5	5
DTM3093-QZ	EXTREME triangle abrasive mesh 93x93 mm K120	5	5
DTM3095-QZ	EXTREME triangle abrasive mesh 93x93 mm K240	5	5
