# SPECIFICATIONS

|                         |          |                                                                                          |
|-------------------------|----------|------------------------------------------------------------------------------------------|
| <b>Model:</b>           |          | <b>DJR360</b>                                                                            |
| Length of stroke        |          | 32 mm                                                                                    |
| Strokes per minute      | High (2) | 0 - 3,000 min <sup>-1</sup>                                                              |
|                         | Low (1)  | 0 - 2,300 min <sup>-1</sup>                                                              |
| Max. cutting capacities | Pipe     | 130 mm                                                                                   |
|                         | Wood     | 255 mm                                                                                   |
| Rated voltage           |          | D.C. 36 V                                                                                |
| Battery cartridge       |          | BL1815N, BL1820, BL1820B      BL1830, BL1830B, BL1840, BL1840B, BL1850, BL1850B, BL1860B |
| Overall length          |          | 449 mm                                                                                   |
| Net weight              |          | 4.0 kg      4.6 kg                                                                       |

- Due to our continuing program of research and development, the specifications herein are subject to change without notice.
- Specifications and battery cartridge may differ from country to country.
- Weight, with battery cartridge, according to EPTA-Procedure 01/2003

## Symbols

The following show the symbols used for the equipment. Be sure that you understand their meaning before use.

Read instruction manual.

Only for EU countries  
Do not dispose of electric equipment or battery pack together with household waste material!  
In observance of the European Directives, on Waste Electric and Electronic Equipment and Batteries and Accumulators and Waste Batteries and Accumulators and their implementation in accordance with national laws, electric equipment and batteries and battery pack(s) that have reached the end of their life must be collected separately and returned to an environmentally compatible recycling facility.

## Intended use

The tool is intended for sawing wood, plastic and ferrous materials.

## Noise

The typical A-weighted noise level determined according to EN60745:

Sound pressure level ( $L_{pA}$ ) : 85 dB(A)

Sound power level ( $L_{WA}$ ) : 96 dB (A)

Uncertainty (K) : 3 dB(A)

**WARNING:** Wear ear protection.

## Vibration

The vibration total value (tri-axial vector sum) determined according to EN60745:

Work mode: cutting boards

Vibration emission ( $a_{hB}$ ) : 16.5 m/s<sup>2</sup>

Uncertainty (K) : 1.5 m/s<sup>2</sup>

Work mode: cutting wooden beams

Vibration emission ( $a_{hWB}$ ) 15.5 m/s<sup>2</sup>

Uncertainty (K) : 1.5 m/s<sup>2</sup>

**NOTE:** The declared vibration emission value has been measured in accordance with the standard test method and may be used for comparing one tool with another.

**NOTE:** The declared vibration emission value may also be used in a preliminary assessment of exposure.

**WARNING:** The vibration emission during actual use of the power tool can differ from the declared emission value depending on the ways in which the tool is used.

**WARNING:** Be sure to identify safety measures to protect the operator that are based on an estimation of exposure in the actual conditions of use (taking account of all parts of the operating cycle such as the times when the tool is switched off and when it is running idle in addition to the trigger time).

## EC Declaration of Conformity

**For European countries only**

Makita declares that the following Machine(s):

Designation of Machine: Cordless Recipro Saw

Model No./ Type: DJR360

Conforms to the following European Directives:

2006/42/EC

They are manufactured in accordance with the following standard or standardized documents: EN60745

The technical file in accordance with 2006/42/EC is available from:

Makita, Jan-Baptist Vinkstraat 2, 3070, Belgium
