

## G-SOFT FIT reusable ear plugs

Update: 03/06/2021

Reference	EAN	Product
887769 / 13319426	3660338411502	SNR 33dB Box of 50 pairs

### Description

G-SOFT FIT pre-molded reusable earplugs are intended for insertion into the ear canal to reduce exposure to harmful noise.

The following products were used in the manufacture of this product:

Earplugs – TPR (thermoplastic rubber)

### Applications

G-SOFT FIT earplugs are ideal for protecting against moderate to high noise levels. They are particularly suitable in all noisy environments in an industrial environment as well as during leisure time. Typical application examples can be found in the following industries:

- Manufacturing
- Workshops
- Construction
- Surveillance
- Dirty environments

### Characteristics

- Great ease of insertion thanks to its pre-molded plug and its stem
- Cord can be detached for added safety when working around machines and for cleaning
- Soft and durable material
- One size for most ear canals
- SNR= 33dB
- Easy to clean

### Instructions & maintenance

Remove the ear plug with a slow and gentle twist while removing it from the ear canal.

After use, clean and disinfect the plugs with mild soap and warm water. Let plugs dry before reuse. Store the plugs in a way that protects them from dirt, grease, etc.

These ear plugs are corded and should not be used if there is a risk of the cord getting caught when moving.

### Standard and certifications

The GISS G-SOFT FIT ear plugs are tested to EN 352-2.
