

Series 96 /196: For work with high demands

- Ultra-rigid aluminium profile with reinforcing ribs – for high stability and secure hold while working
- End caps with an anti-slip stopper – for a firm seat when marking
- Shock-absorbing end caps – the two-component material mix protects the profile against impact
- Removable end caps allow exact positioning and marking right up into the corners
- Easy to clean thanks to the electrostatic powder coating
- Spirit level with two precision-milled measuring surfaces (up to 122 cm, coated from 183 cm)
- Accurate measuring in all positions
- STABILA installation technology ensures long-term accuracy – suitable for measuring in normal and reverse position

Application / Additional features

Type 96-2 and Type 196-2: Especially suitable for craftsmen who subject their tools to extremely demanding conditions and need to measure in all positions; for example, in bricklaying and carpentry, in wood construction, reinforced concrete construction, window fitting, road construction, gardening and landscaping work.

Type 196-2: With **finger-grip openings** for easy and comfortable use.

Type 96-2-M: Especially suitable for measuring tasks in metal construction – the craftsman always has his hands free when aligning and

adjusting components. **Rare-earth magnet system** – for extra-strong adhesion to metal objects.

Type 196-2 LED: For all craftsmen who often work in the dark or in poor visibility conditions and need to measure in all positions, especially when installing heating, in reinforced concrete construction or electrical installations. **Tough light technology that is suitable for use on construction sites** – for optimum readability.

Type 196-2 LED: Battery replacement pack with 2 LED units – quick lighting change at the workplace. Optional accessories (Art. No. 17450).

Can also be used as a powerful mini torch.

* Continuous bridge over the horizontal vial increases the stability of the profile.
