

Lu-1 MULTIFUNCTION PENETRATING LUBRICANT

| Item # | EAN | Product |
|--------|---------------|-------------------------------------|
| 181500 | 3660338006135 | Multifunction penetrating lubricant |

Description

Multifunction penetrating lubricant aerosol, moisture and corrosion control.

Lubricates machine parts thanks to its high penetration. Leaves a slight oil layer that offers protection against oxidation.

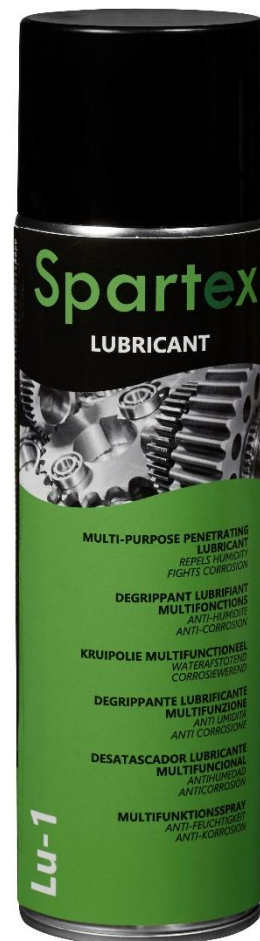

Prevents from squeaks, moisture and leaves an insulating protective layer. Avoids dust or dirt accumulations on machine parts. Specifically designed to quickly and efficiently penetrate any part assembly stuck by oxidation. Penetrates, lubricates and removes moisture.

Applications

Mechanical parts, locks, industry, maintenance

Characteristics

- | | |
|------------------|-------------------------|
| - Gross volume | 650mL |
| - Net volume | 400mL |
| - Propellant gas | CO ₂ |
| - Components | Please refer to the SDS |

Instructions

Shake before use. Spray on the treated parts. Wait a moment and treat again in case of highly corroded pieces. Operate the treated part if needed. For a moisture control treatment: clean the surfaces. Spray. Wait for complete drying before restart.

Packaging

- Unit
- Carton of 12 aerosols
