

Lu-3 PENETRATING OIL LUBRICANT NSF H1

| Item # | EAN | Product |
|--------|---------------|----------------------------------|
| 840632 | 3660338619366 | Penetrating oil lubricant NSF H1 |

Description

Provides effective protection against the corrosion of metal parts.
Useful for the repair and maintenance of all types of appliance.
Loosens, lubricates, cleans, protects and eliminates damp.
Lubricates mechanical parts. Leaves a slightly greasy film which provides protection against oxidation.
Helps to resolve many lubrication and seizing issues on mechanical machines or materials in the agrofood industry.
Prevents the accumulation of dust and dirt on mechanical parts.

Applications

Product specially designed for use in the food industry (fortuitous contact).
Also usable in other areas: community centres, automotive and other industries.

Characteristics

| | |
|------------------|-------------------------|
| - Gross volume | 650mL |
| - Net volume | 400mL |
| - Propellant gas | CO ₂ |
| - Components | Please refer to the SDS |

Instructions

Proceed with brief pulses without long spraying.
Shake before use. Spray on the parts to treat. Wait a few moments and spray again for highly corroded parts. For a moisture prevention treatment: clean the surfaces, spray, wait until complete drying before using.

Packaging

- Unit
- Carton of 12 aerosols

Nonfood Compounds
Program Listed NSF H1
Registration #163217
