

### Gr-3 WHITE FOODGRADE GREASE PTFE-BASED, NSF H1

Item #	EAN	Product
840636	3660338061950	Graisse blanche alimentaire

#### Description

White PTFE-based food grade grease.  
Odorless and resistant to detergents. Lubricates even in severe conditions: corrosive environment and high temperatures.  
Resists to water and steam. Perfect lubricants for devices in agrofood industry with mechanisms needing a good lubrication. Reduces friction between metallic and plastic pieces as well as preventing corrosion.

#### Applications

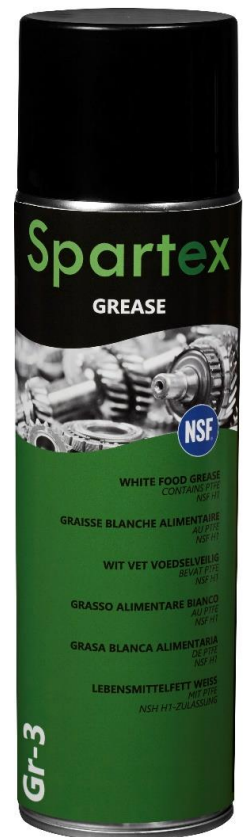

Recommended for a clean lubrication of bearings, even if used with hinges, springs, tools, rails and chains.

#### Characteristics

- Gross volume 650mL
- Net volume 400mL
- Propellant gas CO<sub>2</sub>
- Components Please refer to the SDS

Nonfood Compounds  
Program Listed NSF H1  
Registration #163218

#### Instructions

Vigorously shake before use. Proceed briefly spray without any long spray. Maintain the aerosol about 20cm from the parts to lubricate. The extension tube permits to lubricate uneasy access parts.

#### Packaging

- Unit
- Carton of 12 aerosols
