

FLAT STRAP SLING CLASS 2

Description

B type sling, 2 carrier belts, folded loop. . Working factor: 1:7 . For your safety, protect your slings. To protect them on sharp edges, contact us. . Important: These loop lengths have been defined to meet an angle of opening of the loops alpha between 10 and 20° when using the straps. Indeed, too wide an angle on the loop will open the loop. Conversely, too narrow an angle will create a bending tension at the lifting axis. Standard: EN 1492-1

Strong points

Ideal for fixing on a hook. Individual traceability of each product (delivered with a certificate of conformity)
