

Extended length low weight carbon fibre digital calipers.

Features

- Reinforced carbon fibre for reduced weight and ease of use
- Extended length caliper options for measuring larger dimensions
- Large backlit colour LCD display
- Selectable as metric or imperial display, both scales etched on beam
- Absolute and incremental functions with measurement hold
- Configurable offset, with option to switch between absolute value or offset value
- Locking screw to hold position and prevent movement
- Self power off when unused for some time
- 3V lithium battery CR2032, estimated battery life > 1 year
- IP65 ingress protection
- Supplied in a protective metal case with foam padding

Carbon Fibre Caliper Specification

Code No.	Description	Range (mm)/inch	Jaw Length (mm)	Resolution (mm/inch)	Accuracy (mm/inch)	Weight (kg)
MW153-60DDL	Carbon Fibre Caliper 0-600mm	0-600 /0-24	138	0.01 /0.0005	0.05 /0.002	1.27
MW153-75DDL	Carbon Fibre Caliper 0-1000mm	0-1000 /0-40	138	0.01 /0.0005	0.06 /0.0025	1.5
MW153-80DDL	Carbon Fibre Caliper 0-1500mm	0-1500 /0-60	150	0.01 /0.0005	0.13 /0.0055	2
