INK MARKER GUIDE

Permanent and removable products

DURA-INK® Permanent Ink Markers

Industry professionals require more out of their tools, which is why Markal® has been the trusted leader in industrial-grade marking solutions for over 78 years. Engineered to perform in the toughest industrial environments, our DURA-INK® family of permanent ink markers offers the best combination of performance, durability and value. With sturdy, wear-resistant barrels that hold an extra-large ink supply and industrial-strength tips, these markers are guaranteed to work as hard as you do.

Roll-resistant caps

Composed of sturdy plastic, these impact-resistant caps are designed to offer a quick and complete seal to prevent premature dry-out. The convenient clip caps help the markers to store easily in a pocket or tool belt, and resist rolling off of a table or workbench.

Durable, lightweight barrels

Lightweight enough to reduce hand fatigue, but large enough to be used comfortably even with work gloves, these break-resistant barrels will hold up under tough working environments and help to extend the life of the marker.

Extra-tough Tips

Whether marking on cardboard or steel, the extra-tough tips resist spreading or mushrooming, ensuring long life and accurate marking performance.

Wear-resistant ink formula

Formulated to dry quickly and leave bold, highly-visible marks, the wear-resistant ink is safe for use on almost any surface and is wear- and water-resistant.

DURA-INK® 5 Extended Micro Tip

The DURA-INK 5 is a permanent ink marker that uses an extended micro tip for precision marking needs and is ideal to use through drill holes, mounting brackets, or in any hard to reach areas.
