LUBER READY 60 FOOD

Ready

READY BOOSTER: compact and robust electromechanical lubricator. The FOOD version is provided with a multi-purpose grease for the food and pharmaceutical industries. Complies with NSF-H1 recommendations. Its capacity is 60cm³.

MAIN LUBRICANT FEATURES

Type of lubricant	Grease
Consistency	2
Base oil	Paraffinic mineral
Thickener	Aluminium complex
Max lubricant service temperature	393,15 °K
Min lubricant service temperature	243,15 °K
Viscosity at 100°C	22 cst
Viscosity at 40°C	195 cst

MAIN GREASER FEATURES

ATEX certification	Yes
Capacity	60 cm ³
Diameter	58 mm
Distribution time	1 to 12 months
Driving type	Electrochemical
Length	84,5 mm
Mass	0,145 kg
Max pressure	5 bar
Pression maxi	5 bar

MAIN GREASER FEATURES

Max operating temperature	333,15 °K
Min operating temperature	253,15 °K
Type of lubricant	Food
