

# Twin cylinders DPZ/DPZJ

Product range overview

FESTO

Function	Version	Type	Piston Ø	Stroke	Precision end position adjustment	
			[mm]	[mm]	Retracted end position	Advanced end position
Double-acting	Basic version					
		DPZ	10	10, 25, 40, 50	■	—
			16, 20, 25, 32	10, 25, 40, 50, 80, 100		
	Through piston rods with additional yoke plate					
		DPZ] for higher lateral forces and precision	10	10, 25, 40, 50	■	■
16, 20, 25, 32			10, 25, 40, 50, 80, 100			

# Twin cylinders DPZ/DPZJ

Type codes

FESTO

		DPZ	-	10	-	40	-	P	-	A	-	KF	-	S2
<b>Type</b>														
Double-acting														
DPZ	Twin cylinder with one yoke plate													
DPZJ	Twin cylinder with through piston rods and two yoke plates													
<b>Piston Ø [mm]</b>														
<b>Stroke [mm]</b>														
<b>Cushioning</b>														
P	Flexible cushioning rings/plates at both ends													
<b>Position sensing</b>														
A	For proximity sensing													
<b>Guide</b>														
GF	Plain bearing guide													
KF	Recirculating ball bearing guide													
<b>Variant</b>														
S2	Through piston rod
