

# 5 Port Pilot Operated Solenoid Valve Metal Seal, Body Ported Series **VFS1000**

## Model

| Type of actuation |                 | Model   |             | Port size | Flow characteristics |      |      |                         |      |      | Max. <sup>(1)</sup><br>operating<br>cycle<br>(cpm) | Response<br>time<br>(ms) <sup>(2)</sup> | Mass <sup>(3)</sup><br>(kg) |
|-------------------|-----------------|---------|-------------|-----------|----------------------|------|------|-------------------------|------|------|----------------------------------------------------|-----------------------------------------|-----------------------------|
|                   |                 | Plug-in | Non plug-in |           | 1 → 4/2 (P → A/B)    |      |      | 4/2 → 5/3 (A/B → R1/R2) |      |      |                                                    |                                         |                             |
|                   |                 |         |             |           | C<br>[dm³/(s·bar)]   | b    | Cv   | C<br>[dm³/(s·bar)]      | b    | Cv   |                                                    |                                         |                             |
| 2 position        | Single          | VFS1120 | VFS1130     | 1/8       | 1.7                  | 0.22 | 0.38 | 1.8                     | 0.19 | 0.40 | 1200                                               | 15 or less                              | 0.18                        |
|                   | Double          | VFS1220 | VFS1230     | 1/8       | 1.7                  | 0.22 | 0.39 | 1.8                     | 0.19 | 0.40 | 1200                                               | 13 or less                              | 0.26                        |
| 3 position        | Closed center   | VFS1320 | VFS1330     | 1/8       | 1.6                  | 0.20 | 0.37 | 1.8                     | 0.20 | 0.41 | 600                                                | 20 or less                              | 0.27                        |
|                   | Exhaust center  | VFS1420 | VFS1430     | 1/8       | 1.7                  | 0.18 | 0.38 | 1.9                     | 0.19 | 0.44 | 600                                                | 20 or less                              | 0.27                        |
|                   | Pressure center | VFS1520 | VFS1530     | 1/8       | 1.7                  | 0.24 | 0.40 | 1.6                     | 0.18 | 0.37 | 600                                                | 20 or less                              | 0.27                        |

- Note 1) Based on JIS B 8375 (once per 30 days) for the minimum operating frequency.  
 Note 2) According to JIS B 8375-1981. (The value at supply pressure 0.5 MPa.)  
 Note 3) In the case of grommet type  
 Note 4) "Note 1)" and "Note 2)" are with controlled clean air.

**Compact yet provides a  
large flow capacity  
C: 1.8 dm<sup>3</sup>/(s·bar)**

**Low power consumption:  
1.8 W DC**

## Standard Specifications

| Valve specifications       | Fluid                                    |            | Air/Inert gas                                                |
|----------------------------|------------------------------------------|------------|--------------------------------------------------------------|
|                            | Maximum operating pressure               |            | 1.0 MPa                                                      |
|                            | Min. operating pressure                  | 2 position | 0.1 MPa                                                      |
|                            |                                          | 3 position | 0.15 MPa                                                     |
|                            | Proof pressure                           |            | 1.5 MPa                                                      |
|                            | Ambient and fluid temperature            |            | -10 to 60°C <sup>(1)</sup>                                   |
|                            | Lubrication                              |            | Non-lube <sup>(2)</sup>                                      |
|                            | Pilot valve manual override              |            | Non-locking push type (Flush)                                |
|                            | Shock/Vibration resistance               |            | 150/50 m/s <sup>2</sup> <sup>(3)</sup>                       |
|                            | Enclosure                                |            | Dustproof (Degrees of protection 0) <sup>(4)</sup>           |
| Electricity specifications | Coil rated voltage                       |            | 100, 200 VAC, 50/60 Hz; 24 VDC                               |
|                            | Allowable voltage fluctuation            |            | -15 to +10% of rated voltage                                 |
|                            | Coil insulation type                     |            | Class B or equivalent (130°C) <sup>(5)</sup>                 |
|                            | Apparent power<br>(Power consumption) AC | Inrush     | 5.6 VA (50 Hz), 5.0 VA (60 Hz)                               |
|                            |                                          | Holding    | 3.4 VA (2.1 W)/50 Hz, 2.3 VA (1.5 W)/60 Hz                   |
|                            | Power consumption (DC)                   |            | 1.8 W (2.04 W: With light/surge voltage suppressor)          |
| Electrical entry           |                                          |            | Grommet, Grommet terminal,<br>Conduit terminal, DIN terminal |

- Note 1) Use dry air at low temperatures.  
 Note 2) Use turbine oil Class 1 (ISO VG32), if lubricated.  
 Note 3) Impact resistance: No malfunction occurred when it is tested with a drop tester in the axial direction and at the right angles to the main valve and armature in both energized and de-energized states every once for each condition. (Values at the initial period)  
 Vibration resistance: No malfunction occurred in a one-sweep test between 45 and 2000 Hz. Test was performed at both energized and de-energized states in the axial direction and at the right angles to the main valve and armature. (Values at the initial period)

Note 4) Based on JIS C 0920. Note 5) Based on JIS C 4003.

## JIS Symbol

| 2 position | 3 position      |
|------------|-----------------|
| Single     | Closed center   |
|            |                 |
| Double     | Exhaust center  |
|            |                 |
|            | Pressure center |
|            |                 |

## Option Specifications

| Pilot valve manual override | Non-locking push type (Extended), Locking type (Tool required), Locking type (Lever) |
|-----------------------------|--------------------------------------------------------------------------------------|
| Coil rated voltage          | 110 to 120, 220, 240 VAC (50/60 Hz)<br>12, 100 VDC                                   |
| Option                      | With light/surge voltage suppressor <sup>Note)</sup>                                 |
| Foot bracket (With screw)   | Part No.: AXT626-10A, VFS1120 (single) only                                          |

- Note) Grommet type is available only w/ surge voltage suppressor (which is directly connected with lead wire).

## Manifold

| Body type | Applicable manifold base (Pilot EXH) |
|-----------|--------------------------------------|
| VFS1□20   | Bar manifold (Individual EXH)        |
| VFS1□30   | Bar manifold (Common EXH base side)  |

- Note) VFS1□30: Manifold only. Cannot be used as a single unit.

# 5 Port Pilot Operated Solenoid Valve Metal Seal, Body Ported *Series VFS1000*

## How to Order

**VFS1** **1** **20** - **1** **G** **01** **01** **01**

**Symbol**

1 2 position single  
2 2 position double  
3 3 position closed center  
4 3 position exhaust center  
5 3 position pressure center

**Body (Pilot exhaust)**

20: Individual EXH  
30\*: Common EXH

**Thread type**

|     |      |
|-----|------|
| Nil | Rc   |
| N*  | NPT  |
| T*  | NPTF |
| F*  | G    |

\* Option

**Port size**

|    |        |
|----|--------|
| 01 | Rc 1/8 |
|----|--------|

**Manual override**

Nil: Non-locking push type (Flush)  
A\*: Non-locking push type (Extended)  
B\*: Locking type  
C\*: Locking type (Lever)

\* Option

**Light/Surge voltage suppressor**

|     |                                     |
|-----|-------------------------------------|
| Nil | None                                |
| Z   | With light/surge voltage suppressor |
| S*  | With surge voltage suppressor       |

\* Grommet type is available only w/ surge voltage suppressor, not w/ indicator light.

**Electrical entry**

G: Grommet  
E: Grommet terminal  
T: Conduit terminal  
D, Y: DIN terminal

**Coil rated voltage**

|    |                           |
|----|---------------------------|
| 1  | 100 VAC (50/60 Hz)        |
| 2  | 200 VAC (50/60 Hz)        |
| 3* | 110 to 120 VAC (50/60 Hz) |
| 4* | 220 VAC (50/60 Hz)        |
| 5  | 24 VDC                    |
| 6* | 12 VDC                    |
| 7* | 240 VAC (50/60 Hz)        |
| 9* | Other                     |

\* Option

**Option**

F: With foot bracket

\* Mountable only for VFS1120.
