Description

Protective gloves made entirely from goat's grain,
With webbed thumb and elasticated knit wrist.
With an integrated artery guard for secure fit and optimum comfort.
Goat's grain is a flexible, robust material that guarantees excellent dexterity.
Perfect for use in wet environments.

Use instructions/ Applications

Protective glove for mechanical risks and with no chemical, microbiological, electrical or thermal hazards.
Light handling, warehouse keepers, machinery drivers, Tool handling...

Usage limits

We draw the attention of users to the fact that gloves with tear resistance (level ≥ 1) must not be used when there is a risk of catching in moving machines. These gloves do not contain any substances known to be carcinogenic or toxic. Contact with the skin may cause allergic reactions in sensitive persons (natural latex, in the cuff wrists of some gloves). In the event of a reaction, cease use and consult a doctor.

Storage/Cleaning instructions

Store in a cool, dry place away from frost and light in their original packaging. No special maintenance is recommended for these types of gloves. Do not wash the gloves.
