Strong points: Cordura® reinforcements: Leg bottoms and knee pads pockets

Excellence fabric for exceptional garments solid and resistant to wear. The polyamide fibre found in Cordura® guarantees a superior longevity. An additional treatment makes it water-repellent and dust resistant for ease of care and optimal comfort. GISS uses this fabric to reinforce clothing where wear is important.

Combining modernity and quality, the new range Urban Work Premium Evol meets the demands of today's worker thanks to a mainly Canvas cotton textile.

The high performance textile features high tear, scratches and abrasion resistance. Dedicated to industrial sectors,

the range has been engineered to provide comfort, maximum safety and sturdiness to users.

This clothing combines a Cordura® fabric protecting the zones which are the most exposed to abrasion and a polyester cotton base cloth.

Textiles: 60% cotton 40% polyester Canvas 270 g/m²

Sturdy combination of cotton and polyester, with excellent wear resistance and a rough aspect. The fabric is both durable and has a pleasant feel. The light stretch fabric provides freedom of movement.
