

## LENOX Multi Material Recip Blades – Pack of 5

1769340

- Aggressive tang geometry for faster cuts
- 0.9mm Blade thickness for faster cutting performance in wood, metal and plastic
- Tooth designs and set geometry for longer blade life
- 10/14 TPI dual toothing for successive multi material cutting

### Description:

The LENOX Recip blades feature patented T2™ Technology, which reduces cutting forces on each tooth and optimizes chip removal to allow efficient cutting in the widest range of materials. The high speed blasting along the cutting edge strengthens the blades to reduce breaks and increase durability. The blade is designed to minimize friction and heat build-up while cutting.

Specifications	
TPI	10/14
Length x Width x Thickness	6 x 3/4 x .035 (Inch)
Length x Width x Thickness	150 x 19 x 0.9 (mm)
