

# Industrial drilling machine – HU 40 G-4

## Description

The HU 40 G industrial gear wheel driven drilling machine has hardened and ground gear wheels. The table can be rotated. The machine has t-slots and a coolant drain. The drilling depth can be set using the adjustable depth stop. Fitted with a tool ejector and 2 speed motor. The drill chuck cover is equipped with an auto stop switch.

## Features

- cooling system
- electromagnetic feed
- spindle clockwise and counter clockwise
- machine worklight
- large table
