Description

Blue Fire combines the latest Norzon grain design, with a high strength paper backing, providing the best product - both in performance and productivity. Self-Grip discs have a quick release backing that allows fast and easy disc changing, increasing performance by minimising downtime.

Features & Benefits

Latest Norzon grain design with self-sharpening grain for great cut rate and extended product life

Sharp Norzon grains cut through old paint layers, body filler and smooth sharp edges with ease and the open coating helps to prevent clogging

High strength E-weight paper backing is tear resistant and significantly reduces common issues such as curling and edge chipping

Prevents premature clogging due to open grain distribution

A full resin bond system maintains grain adhesion, ensuring the grain stays intact for longer for maximum productivity for the life of the disc

The best option for coarse sanding and finishing on hard materials

High strength paper backing with excellent tear resistance and reduced curling and edge chipping

Self-grip backing facilitates quick and easy disc changing

Self-sharpening grain
