2016

Motion detector IS 2180 ECO

Attractive, clever and efficient.

- PIR-sensor for outdoor installations
- Modern product design
- 180° detection angle with upto 12m detection range
- More than 500 switching zones
- Suitable of wall and corner installations
- Available in white and black colour
- German quality with 5 years warranty

Motion detector IS 2180 ECO

Attractive, clever and efficient.

Technical Data

Dimensions (HxLxB):	120 x 78 x 55 mm
Voltage:	230-240V, 50/60 Hz
Sensor-Technology:	Passiv-Infrared
Installation area:	outdoors
Recommended height:	2m
Detection angle:	180° with 90° aperture angle
Detection range:	Basic setting 1: upto 12m tangential Basic setting 2: upto 5m, temperature stabilized.
Sensor technology:	Basic setting 1: 10 switching levels, 504 switching zones Basic setting 2: 9 detection levels, 412 switching zones
Switching capacity:	max. 2000 W (ohmic loads, i.e. all incandescent lamps) max. 6 (electronic ballast/ LED lamps) C ≤ 132 µF
Twilight settings:	2 - 2000 Lux
Time settings:	10 sec. – 15 min.
IP-/Protection class:	IP 54 / II
Material:	UV-resistant plastic
