

tesa[®] 6012

Manual bench dispenser "Twin Bencher"

Product Information

Manual bench dispenser "Twin Bencher"

Product Description

The tesa[®] 6012 Manual bench dispenser "Twin Bencher" is a universal dispenser for tesa[®] packaging tapes in 66m rolls, up to 50mm width. The dispenser can be filled with either one wide roll or two narrow rolls of tape. The tesa[®] 6012 dispenser is an all-purpose dispenser for production and warehouse use, for sealing small packages and for taping wrapping paper. As the dispenser can accommodate two rolls of tape, it can be used with different tesa[®] tape at the same time (e.g. different widths or colours).

Product Features

- Due to the extra-wide blade design the dispenser can easily be loaded with two rolls of tape at the same time (e.g. different widths or colours).
- The integrated safety-blade cover helps to prevent injuries when the dispenser is not in use.

Application Fields

The dispenser can be fastened securely with the supplied clamp or with screws on the packing table (four screw holes are prepared). The tape is pulled off and cut along the serrated blade.

Properties/Performance Values
