

3M Roloc Cloth Disc 777F

Contains Cubitron Mineral for long life and fast cut. Grinding aid reduces heat build-up to give a cooler cut on heat sensitive metals. Cloth backing provides more flexibility than fibre for better blending capabilities.

Applications: Grinding and finishing stainless steel weld seams, coils, sheet metal, containers. Materials: -Stainless steel -Chrome-nickel alloys -Nickel and cobalt alloys -Steel alloys -Titanium - Aluminium

Features	Grinding Aid
Mineral	3M Cubitron Abrasive Grain
Backing	Y-weight polyester cloth
Coating	Closed
Bond	Resin
Attachment	Roloc

Part Number	Item Description	Colour	Grade	Dimension	Hole Configuration
76631	Roloc Cloth Disc 777F	Brown	P36	75mm	Plain
