

# 2/3 Port Mechanical Valve

New

RoHS

A more compact and lightweight VM100F series with a built-in One-touch fitting and resin body has been added.

## Lightweight

**VM100 60 g**\* (Conventional model: 95 g)

**VM200 90 g**\* (Conventional model: 111 g)

\* Side ported, basic type

Available in vacuum applications (VM100)

**-100 kPa to 1 MPa**

(VM200: 0 to 1 MPa)

Side ported

Bottom ported

## Mounting

Bracket mounting and bottom mounting are newly added.

Bracket mounting

Bottom mounting (Side ported only)

Side mounting

Panel mounting

## Piping direction

Side ported

Bottom ported (VM100 only)

## With miniature indicator\*

Possible to check if air is output to the secondly port.

\* VM100/Bottom ported only

Series **VM100/200**

CAT.EUS12-8A-UK

### Mechanical Operation

Roller lever

One way roller lever

Straight plunger

Roller plunger

Cross roller plunger

### Manual Operation

Toggle lever

Push button (Mushroom)

Colour: Red, Black, Green, Yellow

Push button (Extended)

Colour: Red, Black, Green, Yellow

Push button (Flush)

Colour: Red, Black, Green, Yellow

Twist selector (2 position)

Colour: Red, Black, Green, Yellow

Key selector (2 position)

Twist selector (3 position)

Colour: Red, Black, Green, Yellow

Foot pedal (VM200 only)

### 4 colours available for buttons

Push button (Flush) is provided with a set of 4 colours.

## Mechanical Valve Variations

Model	Number of ports	Valve construction	Piping direction	Port size (Rc, NPT, G)	Page

# 2/3 Port Mechanical Valve

## Series VM100

RoHS

A more compact and lightweight VM100F series with a built-in One-touch fitting and resin body has been added.

- Compact size
- Piping options:  
Side ported, Bottom ported
- Possible to choose mounting method with side ported:  
Side mounting, bottom mounting using screws, or mounting with special bracket
- A variety of actuator types

### Specifications

Piping	Side ported		Bottom ported	
Fluid	Air			
Operating pressure range	-100 kPa to 1 MPa			
Ambient and fluid temperature	-5 to 60°C (No freezing)			
Flow-rate characteristics	1 (P) ⇒ 2 (A)	2 (A) ⇒ 3 (R)	1 (P) ⇒ 2 (A)	2 (A) ⇒ 3 (R)
C [dm³/(s·bar)]	0.6	0.5	0.5	0.45
b	0.2	0.15	0.2	0.15
Cv	0.11	0.1	0.11	0.1
Q [l/min] (ANR) <sup>Note 1)</sup>	144	117	120	105
Lubrication <sup>Note 2)</sup>	Not required			
Port size	1/8 (Rc, NPT, G)		M5	
Weight (Basic)	60 g		67 g	
Bracket part number <sup>Note 3)</sup>	VM1-B		—	

Note 1) These values have been calculated according to ISO6358 and indicate the flow rate under standard conditions with an inlet pressure of 0.6 MPa (relative pressure) and a pressure drop of 0.1 MPa.

Note 2) Use turbine oil Class 1 ISO VG32, if lubricated.

Note 3) The bracket can only be used for side mounting of side ported type.

### Model

Note 1) It is possible to change the actuator assembly and mount to basic type when an actuator part number is specified in the column.

Note 2) For push button (mushroom), push button (flush), push button (extended) and individual fastening ring, refer to page 25.

Note 3) The handle of the selector (2 position and 3 position) cannot be removed or replaced alone.

Note 4) Colour of plunger: Grey (2 port), White (3 port)

A more compact and lightweight VM100F series with a built-in One-touch fitting and resin body has been added.

## How to Order

VM1 3 1 - 01 - 01 A - -

### Number of ports

2	2 port
3	3 port
5	5 port (Twist selector 3 position only)

### Piping direction and the height of plunger

	Side ported	Long
0		
1		Short
	Bottom ported	Long
2		
3		Short

### Body option

—	Side mounting
U	With bottom mounting thread

Note) U: Applicable only to side ported type

### Port size

01	R1/8	
N01	NPT1/8	Side ported only
F01	G1/8	
M5	M5 x 0.8	Bottom ported only

### Actuator type\*

Actuator type	Height of plunger	Side ported		Bottom ported	
		Long	Short	Long	Short
00	Basic	○	○	○	○
01	Roller lever	X	○	X	○
02	One way roller lever	X	○	X	○
05	Straight plunger	○	X	○	X
06	Roller plunger	○	X	○	X
07	Cross roller plunger	○	X	○	X
08	Toggle lever	○	X	○	X
30	Push button (Mushroom)	○	X	○	X
32	Push button (Extended)	○	X	○	X
33	Push button (Flush)	○	X	○	X
34	Twist selector (2 position)	○	X	○	X
36	Key selector (2 position)	○	X	○	X
35	Twist selector (3 position)	X	○	X	○

Combination possible: ○ Combination impossible: u

### Made to Order (Pages 21, 22)

X207A	Alternate type, Mushroom push button
X219A	Push-lock turn-reset type, Mushroom push button

Note) Applicable only to push button (mushroom)

### Bracket option

—	None
B	With bracket

Note) Applicable only to side ported, side mounting type.  
However, not applicable to twist selector (3 position).  
Bracket is shipped together, but not assembled.

### Suffix for indicator

—	None
Z	With miniature indicator

Note) Applicable only to bottom ported type

### Suffix for actuator\*

S	Hard steel roller
R	Red
B	Black
G	Green
Y	Yellow

Colour of push button, selector

\* Refer to the table on page 1 for combinations of actuator type and suffix.

Weight (Basic)	90 g	
Bracket part number <sup>Note 3)</sup>	VM2-B	

Note 1) These values have been calculated according to ISO6358 and indicate the flow rate under standard conditions with and inlet pressure of 0.6 MPa (relative pressure) and a pressure drop of 0.1 MPa.

Note 2) Use turbine oil Class 1 ISO VG32, if lubricated.

Note 3) The bracket can only be used for side mounting of side ported type.

### Model

			VM220-02-40A	VM230-02-40A	—	—	—	

Note 1) It is possible to change the actuator assembly and mount to basic type when an actuator part number is specified in the column.

Note 2) For push button (mushroom), push button (flush), push button (extended) and individual fastening ring, refer to page 25.

Note 3) The handle of the selector (2 position and 3 position) cannot be removed or replaced alone.

Note 4) Color of plunger: Gray (2 port), White (3 port)

## How to Order

**VM2 3 0 - 02 - 01 S A - B -**

**Number of ports**

2	2 port
3	3 port
5	5 port (Twist selector 3 position only)

**Body option**

—	Side mounting
U	With bottom mounting thread

**Port size**

02	R1/4
N02	NPT1/4
F02	G1/4

**Actuator type\***

00	Basic
01	Roller lever
02	One way roller lever
05	Straight plunger
06	Roller plunger
07	Cross roller plunger
08	Toggle lever
30	Push button (Mushroom)
32	Push button (Extended)
33	Push button (Flush)
34	Twist selector (2 position)
36	Key selector (2 position)
35	Twist selector (3 position)
40	Foot pedal

**Made to Order (Pages 21, 22)**

X207A	Alternate type, Mushroom push button
X219A	Push-lock turn-reset type, Mushroom push button

(Note) Applicable only to push button (mushroom)

**Bracket option**

—	None
B	With bracket

(Note) Applicable only to side mounting type.  
However, not applicable to twist selector  
(3 position) and foot pedal.  
Bracket is shipped together, but not assembled.

**Suffix for actuator\***

S	Hard steel roller
R	Red
B	Black
G	Green
Y	Yellow

Colour of push button, selector

\* Refer to the table on page 13 for combinations of actuator type and suffix.

## Construction

## Component Parts

No.	Description	Material	Note
1	Valve	ADC	White coated
2	Plunger	Polyacetal	2 port Grey
			3 port White
3	Plunger retainer	PBT	
4	Cover	PBT	
5	Inner valve	NBR, Brass	
6	Spring	Stainless steel	
7	Spring	Spring steel

# Series VM100/200 Specific Product Precautions 1

Be sure to read before handling.

Refer to back cover for Safety Instructions and “Handling Precautions for SMC Products” (M-E03-3) for 3/4/5 Port Solenoid Valve Precautions.

## Definition of Symbol

The abbreviations F.O.F. / P.T. / O.T. / T.T. shown in this catalogue are detailed below.

- **F.O.F. <Full Operating Force>**  
Required force to total travel position
- **P.T. <Pre-travel>**  
From free position to initial valve operating position
- **O.T. <Over Travel>**  
From initial valve operating position to total travel position
- **T.T. <Total Travel>**  
From free position to total travel position

## Design

### Warning

1. This product cannot be used for applications in which the pressure must be sealed.

Since the VM100 and VM200 are poppet type valves, fluid flows backward when the pressure on port 2 (A) rises.

Since the valves are subject to air leakage, they cannot be used for applications such as holding pressure (including vacuum).

2. Not suitable for use as an emergency shutoff valve

This mechanical valve is not designed for safety applications such as an emergency shutoff valve. If the valves are used for the mentioned applications, additional safety measures should be adopted.

## Mounting

### Warning

1. When installing the mechanical operation type mechanical valves, adjust the position so that the valves do not operate over the operating limit range.

Operating over the limit could damage the mechanical valve or actuator, and lead to equipment malfunction.

## Mounting

### Warning

2. P.T. depends on pressure or differences between the individual product specifications. In order to ensure that the valve opens, keep the operating stroke value for the mechanical operation type within the range specified by the following formula.

$$\text{Operating stroke} = (P.T. + 0.5 \times O.T.) \text{ to } (P.T. + O.T. - 0.1)$$

#### Operating Stroke Range

Series	Actuator type	Operating stroke [mm]
VM100	Basic	2.2 to 2.9
	Roller lever	4.3 to 5.4
	One way roller lever	4.3 to 5.4
	Straight plunger	2.7 to 3.4
	Roller plunger	2.7 to 3.4
	Cross roller plunger	2.7 to 3.4
VM200	Basic	4 to 4.9
	Roller lever	8.7 to 10.9
	One way roller lever	9.5 to 11.9
	Straight plunger	4.5 to 5.4
	Roller plunger	4.5 to 5.4
	Cross roller plunger	4.5 to 5.4

For straight and roller plunger types, there is a groove indicating P.T. and T.T. for stroke adjustment.

3. Do not make any alterations to the valve body, such as enlarging the body mounting holes.

As doing so could lead to unexpected abnormal conditions such as air leakage.

## Operation

### Warning

1. Operate the manual operation type mechanical valves (such as push button, twist selector and toggle lever types) with your finger.

The use of equipment such as a cylinder, cam or hammer, can result in the actuator and the valve being damaged.

Do not operate over the operation limit. If excessive operation force is applied over total travel position, actuator part can get deformed and lead to equipment malfunction.

# Series VM100/200 Specific Product Precautions 2

Be sure to read before handling.

Refer to back cover for Safety Instructions and “Handling Precautions for SMC Products” (M-E03-3) for 3/4/5 Port Solenoid Valve Precautions.

## Operation

### Warning

- When operating the mechanical operation type mechanical valves, select the angle and the maximum speed limit of cam and dog so that valves do not operate over the following maximum values.

If operated over the maximum values, impact force from cam and dog will be applied to the actuator, leading to damage of the actuator or the valve itself.

#### Cam and Dog

Series	Actuator type	Angle limit of cam and dog	Max. speed limit of cam and dog (m/s)
VM100	Roller lever	30°	0.7
		45°	0.3
	One way roller lever	30°	0.7
		45°	0.3
	Straight plunger	—	0.2
	Roller plunger	30°	0.3
VM200	Roller lever	30°	0.7
		45°	0.3
	One way roller lever	30°	0.7
		45°	0.3
	Straight plunger	—	0.2
	Roller plunger	30°	0.3
	Cross roller plunger	30°	0.3

#### [Not acceptable]

Over 45° (Abrupt angle)

#### [Acceptable]

45° or less

#### [Not acceptable]

Max. travel

Over travel. Excessive force is applied due to the maximum travel position being exceeded.

#### [Acceptable]

Max. travel

Sufficient travel. The actuator can reach the total travel position without excessive force being applied.

#### Cam and Dog Material

Roller material	Cam and dog material	Surface finish of cam and dog
Polyacetal	Steel	6.3 z or less
Hard steel	Steel, Resin	25 z or less

- Operate the roller lever type from the direction shown below.

In cases where the dog goes over the actuator, select the one way roller lever type or the roller plunger type.

#### [Not acceptable]

#### [Acceptable]

## Operation

### Caution

- If the operating condition is maintained for long periods of time, it may take some time for the valve to restart due to the adherence of the seals and there might be a delay for recovery.

## Air Supply

### Warning

- Operable fluid is either air or inert gas only.  
It cannot be used for corrosive gas and fluid.

### Caution

- Grease is used for the inside of the valves.  
Grease may enter into the outlet port of the valve.
- When using vacuum pressure for the VM100, supply vacuum pressure to P port.

## Operating Environment

### Warning

- Do not operate it in an area in which fluids such as oil, coolant, or water splash on it or dust comes in contact with it.  
Because it does not have a waterproof or dustproof construction, fluids or dust could enter the valve, leading to malfunction. Therefore, take measures such as providing a protective cover to prevent direct exposure.
- Do not expose the product to direct sunlight for an extended period of time.

## Maintenance

### Warning

- Perform inspections on a regular basis as necessary, such as at the beginning of an operation, to make sure that the mechanical valve operates properly.
- Do not disassemble, modify or repair the product.  
This may lead to malfunction of equipment, injury and equipment damage. Please contact SMC for repairs and maintenance of the product.

# Series VM100/200

## Specific Product Precautions 3

Be sure to read before handling.

Refer to back cover for Safety Instructions and “Handling Precautions for SMC Products” (M-E03-3) for 3/4/5 Port Solenoid Valve Precautions.

### How to Change the Buttons

#### Caution

Replace the button in the following manner to change colour of the button.

##### 1. Push button (Flush type)

- Installation — Of the four colours, red, green, black, and yellow, select and align the protruding portion of the button with the recessed portion of the body and push in.
- Removal — Remove the fastening ring and insert the tip of a small flat head screwdriver into the groove of the button to pry it up.

##### 2. Push button (Mushroom and Extended types)

At the time of shipment, only 1 button of the colour that you specified is attached to the body.

	Mushroom type	Extended type
Installation	Align the protruding portion of the button with the recessed portion of the body and push in. (Use the mark on the button as a reference to align the protruding part.)	Align the protruding portion of the button with the recessed portion of the body and push in.
Removal	Placing your finger under the collar of the button on the side of the mark, tilt it upward.	Remove the fastening ring and insert the tip of a small flat head screwdriver into the groove of the button to pry it up.

##### How to remove a mushroom type button

How to remove at panel mount

##### Removing the valve as a unit

##### Replacement Parts

1. Use the part numbers listed below to order individual mushroom, extended, or flush type buttons.

Colour	Mushroom type button	Extended type button
Red	3402186R	3402187R
Black	3402186B	3402187B
Green	3402186G	3402187G
Yellow	3402186Y	3402187Y

Colour	Flush type button
Red	3402188R
Black	3402188B
Green	3402188G
Yellow	3402188Y

2. Use the part number below to order individual fastening ring.  
Fastening ring: 3402184

# Series VM100/200 Specific Product Precautions 4

Be sure to read before handling.

Refer to back cover for Safety Instructions and “Handling Precautions for SMC Products” (M-E03-3) for 3/4/5 Port Solenoid Valve Precautions.

## X207A, X219A Series How to Mount Panel

### [Task 1] Removing the push button and fastening ring

Remove them from the body turning them counterclockwise in the order of the push button and fastening ring.

### [Task 2] Mounting the valve to the panel

Insert the valve to the panel and fix it with a fastening ring. Remove three spacers attached to the valve depending on the panel thickness.

### [Task 3] Mounting the push button

Tighten the push button clockwise by hand and further tighten it until load is applied.

## Safety Instructions

These safety instructions are intended to prevent hazardous situations and/or equipment damage. These instructions indicate the level of potential hazard with the labels of “Caution,” “Warning” or “Danger.” They are all important notes for safety and must be followed in addition to International Standards (ISO/IEC) <sup>1)</sup>, and other safety regulations.

-  **Caution:** **Caution** indicates a hazard with a low level of risk which, if not avoided, could result in minor or moderate injury.
-  **Warning:** **Warning** indicates a hazard with a medium level of risk which, if not avoided, could result in death or serious injury.
-  **Danger:** **Danger** indicates a hazard with a high level of risk which, if not avoided, will result in death or serious injury.

- 1) ISO 4414: Pneumatic fluid power – General rules relating to systems.  
ISO 4413: Hydraulic fluid power – General rules relating to systems.  
IEC 60204-1: Safety of machinery – Electrical equipment of machines.  
(Part 1: General requirements)  
ISO 10218-1: Manipulating industrial robots - Safety.  
etc.

## Warning

### 1. The compatibility of the product is the responsibility of the person who designs the equipment or decides its specifications.

Since the product specified here is used under various operating conditions, its compatibility with specific equipment must be decided by the person who designs the equipment or decides its specifications based on necessary analysis and test results. The expected performance and safety assurance of the equipment will be the responsibility of the person who has determined its compatibility with the product. This person should also continuously review all specifications of the product referring to its latest catalogue information, with a view to giving due consideration to any possibility of equipment failure when configuring the equipment.

### 2. Only personnel with appropriate training should operate machinery and equipment.

The product specified here may become unsafe if handled incorrectly. The assembly, operation and maintenance of machines or equipment including our products must be performed by an operator who is appropriately trained and experienced.

### 3. Do not service or attempt to remove product and machinery/equipment until safety is confirmed.

1. The inspection and maintenance of machinery/equipment should only be performed after measures to prevent falling or runaway of the driven objects have been confirmed.
2. When the product is to be removed, confirm that the safety measures as mentioned above are implemented and the power from any appropriate source is cut, and read and understand the specific product precautions of all relevant products carefully.
3. Before machinery/equipment is restarted, take measures to prevent unexpected operation and malfunction.

### 4. Contact SMC beforehand and take special consideration of safety measures if the product is to be used in any of the following conditions.

1. Conditions and environments outside of the given specifications, or use outdoors or in a place exposed to direct sunlight.
2. Installation on equipment in conjunction with atomic energy, railways, air navigation, space, shipping, vehicles, military, medical treatment, combustion and recreation, or equipment in contact with food and beverages, emergency stop circuits, clutch and brake circuits in press applications, safety equipment or other applications unsuitable for the standard specifications described in the product catalogue.
3. An application which could have negative effects on people, property, or animals requiring special safety analysis.
4. Use in an interlock circuit, which requires the provision of double interlock for possible failure by using a mechanical protective function, and periodical checks to confirm proper operation.

## Caution

### 1. The product is provided for use in manufacturing industries.

The product herein described is basically provided for peaceful use in manufacturing industries.  
If considering using the product in other industries, consult SMC beforehand and exchange specifications or a contract if necessary.  
If anything is unclear, contact your nearest sales branch.

## Limited warranty and Disclaimer/Compliance Requirements

The product used is subject to the following “Limited warranty and Disclaimer” and “Compliance Requirements”. Read and accept them before using the product.

### Limited warranty and Disclaimer

1. The warranty period of the product is 1 year in service or 1.5 years after the product is delivered, whichever is first. <sup>2)</sup> Also, the product may have specified durability, running distance or replacement parts. Please consult your nearest sales branch.
2. For any failure or damage reported within the warranty period which is clearly our responsibility, a replacement product or necessary parts will be provided. This limited warranty applies only to our product independently, and not to any other damage incurred due to the failure of the product.
3. Prior to using SMC products, please read and understand the warranty terms and disclaimers noted in the specified catalogue for the particular products.
- 2) Vacuum pads are excluded from this 1 year warranty.  
A vacuum pad is a consumable part, so it is warranted for a year after it is delivered. Also, even within the warranty period, the wear of a product due to the use of the vacuum pad or failure due to the deterioration of rubber material are not covered by the limited warranty.

### Compliance Requirements

1. The use of SMC products with production equipment for the manufacture of weapons of mass destruction (WMD) or any other weapon is strictly prohibited.
2. The exports of SMC products or technology from one country to another are governed by the relevant security laws and regulations of the countries involved in the transaction. Prior to the shipment of a SMC product to another country, assure that all local rules governing that export are known and followed.

## Caution

### SMC products are not intended for use as instruments for legal metrology.

Measurement instruments that SMC manufactures or sells have not been qualified by type approval tests relevant to the metrology (measurement) laws of each country. Therefore, SMC products cannot be used for business or certification ordained by the metrology (measurement) laws of each country.

## Safety Instructions

Be sure to read “Handling Precautions for SMC Products” (M-E03-3) before using.
