

LENOX Gold® POWER ARC™ Reciprocating Saw Blade – Pack of 5

2110012110GR

- T2™ Technology Tooth design delivers up to 2x longer life
- Power arc curved blade delivers superior performance
- Aggressive blade design optimised blade angle of attack geometry for faster cutting
- Titanium coating makes teeth more wear resistant
- 10 TPI toothing for successive extreme metal cutting

Description:

The LENOX Gold Power Arc curved blades 10 TPI have an aggressive blade design and a precision applied Titanium coating that makes them last 2X longer than traditional straight LENOX reciprocating saw blades. The titanium coating is also designed to minimize friction and heat build-up while cutting. The patented T2™ Technology, which reduces cutting forces on each tooth and optimizes chip removal to allow efficient cutting in the widest range of materials.

Specifications	
TPI	10
Size	305 x 25 x 1.1 mm
Blade Quantity	5
