

### Ad-1 UNIVERSAL ADHESIVE

Article #	EAN	Product
895104	3660338474828	Universal Adhesive

#### Description

A transparent, universal adhesive for bonding small and extent surfaces. Sticks quickly, strong, and clean with itself and many other materials. Uniform, extra fine spray pattern – the nozzle does not clog. Doesn't penetrate, therefore ideal for thin materials like paper, but sticks also excellently on carton, textiles, leather, felt, cork, rubber, foam material, many plastics, polystyrene, with itself and with many other materials.

#### Applications

For professional use only.  
Offices, graphic arts & light assemblies.

#### Characteristics

- Gross Volume	650 ml
- Volume net	500 ml
- Propellant	Propane/Butane/DME
- Components	Please refer to the SDS

#### Instructions

Carefully clean the surfaces you wish to stick together (dry and free of dust & grease).

Shake the can vigorously before use.

Apply a thin and even film of the spray adhesive from approx. 15-20 cm.

Leave to dry for approx. 5-20 minutes then press the parts together.

In case of porous, uneven or absorbent materials, we recommend spraying a very thin film of adhesive. Allow to lift off. Then continue as described above.

#### Packaging

- Unit
- Box of 12 aerosols
