

Ad-2 REPOSITIONABLE ADHESIVE

Article #	EAN	Product
895106	3660338474835	Repositionable Adhesive

Description

Colourless and transparent repositionable adhesive, ideal for graphic arts. To be coated on films, papers, cartons, woven fabrics... Particularly appreciated in uses where mists are detrimental. Allows multiple repositioning before definitive gluing. Permits to make most of the materials auto-adhesives. Doesn't stain papers nor woven fabrics. Doesn't contain chlorinated solvents. Not aggressive for paints nor lacquers.

Applications

For professional use only.

Offices, graphic arts & light assemblies.

Characteristics

- Gross Volume	650 ml
- Volume net	500 ml
- Propellant	DME
- Components	Please refer to the SDS

Instructions

Carefully clean the surfaces you wish to stick together (dry and free of dust & grease).

Shake the can vigorously before use.

Apply a thin and even film of the spray adhesive from approx. 20-30 cm.

Leave to dry for approx. 5-10 seconds then press the parts together.

It is recommended to check compatibility of the product with the surfaces prior to use.

Drain the aerosol after use.

Packaging

- Unit
- Box of 12 aerosols
