

ABRASIVE SPONGES

FOR HAND SANDING

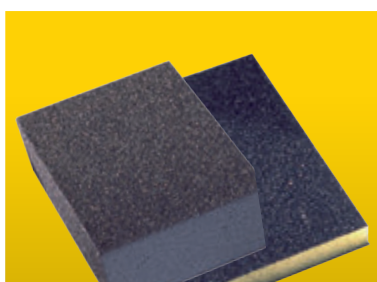

Abrasive sanding sponges are designed for use on wood, plaster, paint and metal. Their flexible nature means they can be used on curved, contoured and flat surfaces.

PRODUCT SELECTION GUIDE

MATERIALS	APPLICATION	GRIT
All materials	Rough sanding	60
	Semi-finishing	100
	Finishing	180+

APPLICATION GUIDE

GRIT	FINISH GENERATED EQUIVALENT TO:	APPLICATIONS
60	180/120	Scuffing, shaping filler
40	400/320	Feather edging, scuffing primer, and new parts before painting
180	600/600	Preparing panel for base coat

- Different abrasive grades in one sponge for multi-purpose usage
- Can be used wet or dry
- Conforms to curves and contours for a uniform finish
- Washable and reusable, won't lose grains or sharpness so sponge can be reused
