

Gr-1 MOS₂ GREASE

Article #	EAN	Product
895120	3660338474903	MOS ₂ grease

Description

Multipurpose grease composed by a high melting point thickener, a high hydrodynamic lubricating mineral base and solid lubricating molybdenum disulfide. Extreme pressure and abrasion protection. Good resistance to contact with water, steam and many corrosive liquids.

Reduces friction factor and saves energy, greasing and maintenance operations. Grease temperature use: -20°C to +140°C

Applications

For bearings, plain bearings, frame hinges, cams, rollers, chains, plate springs, cables...

Ideal for low speed mechanisms, highly loaded; for intermittent greasing.

Characteristics

- Gross Volume	650 ml
- Volume net	500 ml
- Propellant	Propane / Butane
- Components	Please refer to the SDS

Instructions

Before use, carefully read the directions on the packaging and act accordingly.

Shake well before use. Spray on the treated parts. Operate if needed. Wait a few moments and renew for highly corroded parts.

Packaging

- Unit
- Box of 12 aerosols
