

## FIBRE DISC

### Description

Ceramic Fibre disc

### Applications

Stainless steel and heat-resistant steels

### Strong points

Specially designed for use on cool grinding on stainless steel and heat-resistant steels. Ceramic micro-fracturing grain generates an excellent surface finish.

### Characteristics

Ref.	EAN	Diameter mm	Grain	Application	Shape	Reaming diameter mm	Type of abrasive
886331	3660338397653	180	P40	Stainless steel and heat-resistant steels	Fibre disc	22,23	Ceramic
886332	3660338397660	180	P60	Stainless steel and heat-resistant steels	Fibre disc	22,23	Ceramic
886333	3660338397677	180	P80	Stainless steel and heat-resistant steels	Fibre disc	22,23	Ceramic
886334	3660338397684	180	P120	Stainless steel and heat-resistant steels	Fibre disc	22,23	Ceramic
