DT2050-QZ	Especially for curved cuts in softwood, plywood, plywood and fiber boards.	76	48	2	15	T119B0	5
DT2052-QZ	Especially for curved cuts in softwood, plywood, plywood and fiber boards.	116	87	3	65	T301CD	5
DT2053-QZ	By reverse gear splinter-free cuts in wood, chipboard, plywood, fibreboard and laminate (bevel).	100	73	2.5	40	T101BR	5
DT2164-QZ	Fast, straight cuts in wood and, wood materials.	100	68	4	60	T101D	5
DT2165-QZ	Straight, fine cuts in wood, Wood materials and plastics.	100	73	2.5	30	T101B	5
DT2168-QZ	Fine curve cuts in softwood, Plywood and coated boards.	76	47	1.4	30	T101A0	5
DT2049-QZ	Fast, extra straight cuts in wood and chipboard.	100	68	4	60	T101DP	5
DT2051-QZ	Fast, rough cuts in wood, chipboard, plywood and fiber boards.	132	100	4	85	T301DL	5
DT2077-QZ	Fast curve cuts in wood.	100	70	4	60	T244D	5
DT2166-QZ	Fast, straight cuts in wood, chipboard, carpentry and fiber boards.	100	68	4	60	T144D	5
DT2169-QZ	Fast, straight cuts in wood and wood materials.	152	116	4	100	T344D	5
DT2048-QZ	For straight and cuts at accurate angles in wood, chipboard, carpentry and fiber boards	116	87	2.5	65	T301BCP	5
DT2075-QZ	Fast, extra straight and angular cuts in wood, chipboard, carpentry and fiber boards.	100	68	4	60	T144DP	5
DT2076-QZ	Fast, extra straight and angular cuts in wood, chipboard, carpentry and fiber boards.	152	116	4	100	T344DP	5
DT2057-QZ	Quick cuts in varying thicknesses in wood, chipboard, joiner and fiber boards up to 65mm.	116	91	2 - 3	65	T234X	5
DT2167-QZ	Fast, rough cuts in thick wooden planks up to 120mm thickness.	180	155	4	120	T744D	5
DT2060-QZ	Straight, clean cuts in wood, chipboard, plywood, fiber boards and plastics, with U-shank	100	78	2.5	30	U101B	5
DT2061-QZ	Fast cuts in wood and Chipboard, with U-shank.	100	76	4	60	U144D	5

SPECIAL STITCH SAW BLADES

Clean, extra straight, accurate angles and edge flush cuts

JAPANESE TOOTH FORM

For extra sharp and clean cuts without tearing.

EXTRA WIDE BLADE BODY

For edge flush cuts up to the stop of the saw shoe.
Extremely straight cuts without running the blade.
Not suitable for curved cuts.

FEATURES: Recesses - For optimal cooling of the saw blade prevents a narrowing of the workpiece • HCS blade body - Made of flexible carbon steel (HCS) for high durability and best cutting results.
