

BAHCO®

Resettable pliers, internal & external circlips

2928-160

MORE DETAILS ABOUT PRODUCT

- Resettable pliers that complete the range of existing conventional circlip pliers
- Patented pliers are equipped with interchangeable tips (straight, 15° and 90°) which can easily be adapted for use with internal or external circlips as required
- 5 pairs of tips are supplied with the -160 & -200 and 6 pairs with the -250
- Valid for internal circlips from 8 to 100 mm diameter and for external circlips from 3 to 100 mm
- This underlines the significance of e.g. the 2928-160 pliers, which thus covers a range of applications previously embraced by as many as ten conventional pliers
- Regulation stop mechanism (automatic on the 2928-250 model) which makes use easier and prevents the circlips from being damaged due to excessive force being applied
