Characteristics

| | |
|----------------|-------------------------|
| - Gross Volume | 650 ml |
| - Volume net | 250 ml |
| - Propellant | Propane / Butane |
| - Components | Please refer to the SDS |

Instructions

Before use, carefully read the directions on the packaging and act accordingly.

During use, the aerosol should be used in an upright position.

Repeatedly, briefly press the nozzle.

When pressure fails (the aerosol feels cold to touch), interrupt the treatment in order to restore the pressure in the aerosol.

Packaging

- Unit
- Box of 12 aerosols
