Description

The Spartex step ladder is an access device designed for quick and easy height access. It complies with EN 131, Decree 96 333, and is NF certified. It has also been tested and complies with the Warenwet standard. Its non-slip feet, 80 mm ribbed steps, and wide platform make this step ladder a safe tool. Available in models with 3 to 8 steps, it provides safe access to a maximum height of 3.82 m, on a platform measuring 280 x 250 mm. It also features a tool tray and a bucket hook.

Key features

Safety :

- Non-slip feet
- 80 mm non-slip treads crimped onto the uprights
- Front anti-tip safety feature

Quality :

- Lightweight and durable aluminum step ladder
- Ultra-durable ribbed joints
- NF certified, compliant with EN 131, Decree 96333, and Warenwet certification.

Functionality :

- Tool tray, bucket hook
- Platform 280 x 250 mm
- Weight of stepladders between 4 and 8 kgs
