

G-VEGETAL ABSORBENT

Item #	EAN	Product
854282	3660338100987	G-VEGETAL

Description

Non-flammable natural absorbent is made from spruce and pine wood. Major raw material limiting natural resources exhaustion and final waste quantity. Non-slip, does not propagate fire and limits the risks of fire in the work-place. Totally biodegradable product, non-abrasive and chemically neutral, does not contain silica, sulfur or clay and does not present any danger to the persons who use it. Spread the absorbent all over the surface that can be slippery or dirty, without excess. Stir with a brush if needed. The color change indicates fully absorption. Do again if needed.

Applications

Absorbs all types of liquids: fuels, lubricants, solvents, cutting oils, emulsions, cooling liquids, beverages, residual water, used oil, paint, etc...

Characteristics

- Material	Wood particles (spruce and pine wood – 95%) Fire retardant agent Colouring agent
- Absorbent capacity	27L of gasoil (335%) 35L of water (434%) 26L of oil 15W40 (319%)
- Apparent volume weight	200 g/L
- Reduced ash content (after absorbent burning)	0,69
- Class (following the NT F 90-362 norm)	A (bulk)

Caution

Storage and disposal of contaminated wastes must follow enacted legislation.

Packaging

- Bag of 8kg (40L)
- Pallet of 70 bags
