

## Rapid Prep Regular Flex - Surface Blending Discs with attachment surface blending disc 76.2 Extra Fine Blue Norton RAPID PREP

Artical Number: 66623378373

EAN: 3157629495711

SizeDerived: 76.2

### Description

Rapid Prep speedlok discs for mini angle grinders have an open weave that excels in surface preparation and cleaning applications, thanks to a coating system that reduces smearing and resists loading.

### Features & Benefits

For general purpose cleaning and conditioning, gain high material removal, long life and consistent, smear-free finishes, even on high nickel content alloys

The open structure resists loading on softer metals so the disc can be used for longer before being changed, reducing down time and overall abrasive cost

A high content of abrasive throughout the disc means the cut rate is consistently high throughout its life

The layer of grain throughout the product extends life as the grain does not sit on top of fibres

A flexible disc that conforms to contours of the part

Flexible backing enables the disc to conform to contours

The Clean Bond™ resin system ensures surfaces stay smear-free, even on alloys with high nickel content, aluminium and soft metals, loading is prevented

### Application Data

Material Application: STEEL, STAINLESS STEEL

Machine: Mini Grinder

Process: Blending

Equipments:

### Technical Data

Marketing CAP: S2528 Diameter: 76.2 mm

Backing Material:

Grit: VFINE

Color: Blue

Coated Shape: Surf Blending Disc

Maximum Operating Speed (RPM):

Coated Sub-Shape: Discs with attachments

Spindle Type:

Attachment: TY3(SL3)
