Description

Warmth, Comfort, Well-being, Durability, Ease of maintenance

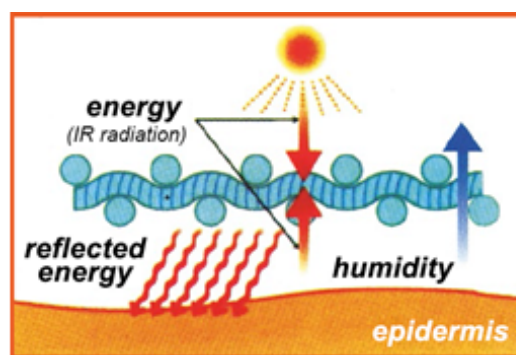

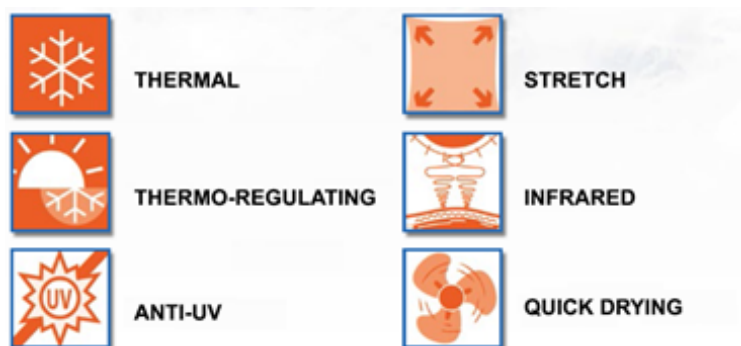

Thermal protective underwear made of Zargun® fiber.

Active cold: for carriers with a high physical activity: regulation of body temperature.

The Zargun® is a natural barrier to infrared radiation, whether it comes from an external source or from the human body.

Characteristics

- Zargun fiber® provides:
- Sustainable molecular thermal comfort
- Durable mechanical elasticity
- Moisture removal
- Ease of maintenance, soft touch
- A special thread, with a cross section, helps to evacuate moisture and keep the body dry

The human body emits heat

Packaging

- Individually packaged/ Carton of 30 units
