- (10) Adapter for suction tube/crevice nozzle bracket
- (11) Battery compartment cover release button
- (12) Battery compartment cover
- (13) Vacuum hose
- (14) Dust extraction adapter
- (15) Curved nozzle
- (16) Crevice nozzle
- (17) Floor nozzle
- (18) Suction tube
- (19) Battery bay
- (20) Rechargeable battery^{a)}
- (21) Battery release button^{a)}
- (22) Fastening screws
- (23) Screen
- (24) Bracket for battery compartment cover
- (25) Bracket for suction tube and crevice nozzle
- (26) Fixing bolt for bracket (27)
- (27) Bracket for vacuum hose and floor nozzle
- (28) Snap fastener
- (29) Carrying strap^{a)}
- (30) Castor^{a)}
- (31) Castor adapter
- (32) False air intake
- (33) Filter
- (34) Float
- (35) Filter holder
- (36) Retaining strap of the vacuum hose

a) **Accessories shown or described are not included with the product as standard. You can find the complete selection of accessories in our accessories range.**

Technical data

Cordless wet/dry dust extractor		GAS 18V-10 L
Article number		3 601 JC6 3..
Voltage	V	18
Rated power input	W	260
Protection class		IPX4
Container volume (gross)	l	10
Net volume (liquid)	l	6
Max. vacuum ^{A)}		
– Dust extractor ^{B)}	hPa	90
– Turbine	hPa	115
Max. flow rate ^{A)}		
– Dust extractor ^{B)}	l/s m ³ /h	24 86
– Turbine	l/s m ³ /h	34 122
Dust class		L

Cordless wet/dry dust extractor		GAS 18V-10 L
Weight according to EPTA-Procedure 01:2014	kg	5.1–6.1 ^{C)}
Recommended ambient temperature during charging	°C	0 to +35
Permitted ambient temperature during operation ^{D)} and during storage	°C	–20 to +50
Recommended rechargeable batteries		GBA 18V... ProCORE18V...
Recommended chargers		GAL 18... GAX 18... GAL 36...
Operating time per battery charge	min/Ah	4

A) Measured at 20–25 °C with rechargeable battery **GBA 18V 6.3Ah**.

B) measured with vacuum hose (13) and curved nozzle (15)

C) Depends on battery in use

D) Limited performance at temperatures < 0 °C

Noise/Vibration Information

Noise emission values determined according to **EN 60335-2-69**.

Typically the A-weighted sound pressure level of the dust extractor is **79 dB(A)**. Uncertainty K = 2 dB. The noise level when working can exceed the volume stated. **Wear hearing protection!**

Vibration total values a_{h} (tri-ax vector sum) and uncertainty K determined according to **EN 60335-2-69**:

$a_{\text{h}} < 2.5 \text{ m/s}^2$, K = 1.5 m/s^2 .

Assembly

Charging the Battery

► **Use only the chargers listed in the technical data.** Only these chargers are matched to the lithium-ion battery of your dust extractor.

Note: The battery is supplied partially charged. To ensure full battery capacity, fully charge the battery in the charger before using your power tool for the first time.

The lithium-ion battery can be charged at any time without reducing its service life. Interrupting the charging process does not damage the battery.

The lithium-ion battery is protected against deep discharge by the "Electronic Cell Protection (ECP)". A protective circuit switches the cordless dust extractor off when the battery is drained.

► **Do not continue to press the on/off button after the dust extractor has automatically switched itself off.**

This can damage the battery.

A significantly reduced operating time after charging indicates that the battery has deteriorated and must be replaced. Follow the instructions on correct disposal.
