

## Norton Pro Self Grip Sanding Discs Antiloading disc selfgrip 150 Gr120 Norton PRO

Artical Number: 63642569701

EAN: 3157625578319

SizeDerived: 150

### Description

Norton Pro provides a fast, cool cut rate with no clogging, resulting in a longer lasting product. The special No-Fil coating prevents the build-up of dust and premature clogging of the disc. Self-Grip discs have a quick release backing that allows fast and easy disc changing, increasing performance by minimising downtime.

### Features & Benefits

Heat treated aluminium oxide abrasive for faster cut rate and consistent scratch pattern for consistently good surface finish

Heat-treated high performance aluminium oxide grain provides Norton Pro with a fast cut rate and a consistent, uniform scratch pattern

Can be used universally on different surfaces

Discs are flexible and tear resistant due to their fibre-reinforced latex paper backing which is heavier in grits P80-P120 for more aggressive applications and lighter weight in finer grits for more flexibility

No-Fil® coating prevents premature clogging for a longer lasting disc

The No-Fil® layer is added to resist loading and is pigment-free, which eliminates the risk of colour transfer to the surface

Fibre reinforced latex paper is flexible yet tear resistant

MOUNTING: Norton Pro discs are for use on orbital sanders with 150mm and 203mm back-up pads.

### Application Data

Material Application: PAINT & VARNISH  
Machine: Disc Sander  
Process: Sanding

Equipments:
