

Cut

Medium Duty

High visibility with unprecedented cut resistance and durability

- Experience exceptional comfort and durability combined with ANSI Level 5 Cut performance and high visibility. The new HyFlex® 11-515 glove is ergonomically designed so users are more likely to wear the glove
- It helps keep workers visible in low light situations thus reducing the opportunities for hand injuries to occur
- The HyFlex® 11-515 glove has several outstanding features, including INTERCEPT TECHNOLOGY® yarn developed by Ansell and DuPont™, which incorporates Kevlar® Stretch Armor Technology
- The extended cuff provides additional cut protection in the highly sensitive wrist area. Our foam nitrile formulation provides longer wear for increased durability
- The HyFlex® 11-515 offers superior grip and tactility in light oil or dry environments, providing sure grip and assurance when handling sharp objects and knives.
- With incredible cut protection, high visibility and a relaxed fit, the HyFlex® 11-515 enables your workers to perform safely and efficiently

Industries

- Automotive
- Metal fabrication

Applications

- Press shop operations
- Handling metal sheets & panels
- Inspection, selecting, checking parts
- Processing sheets, coils, tubes
- Cutting glasses, sheets, panels

Key Features

- Ability to handle sharp parts and knives with confidence, increasing worker output and security in light oil or dry applications
- Provides ANSI Level 4 abrasion resistance for longer life
- New coating technology provides increased wear in high stress areas
- Silicone-free and latex-free for worker and product protection
- Available in a wide range of sizes to protect more workers
- Also available in vend pack
