T-BAR CLAMPS 136 SERIES AND SPARE PARTS

These clamps resist twisting and distortion under clamping pressures. Both the head and slide are guaranteed unbreakable. The slide is secured by a solid steel pin passing through one of the locating holes spaced along the steel bar. The steel mainscrew applies pressure quickly and smoothly through a fast acting, hard wearing rolled thread. Slides and heads are flat bottomed so that the clamp will stand without support.

MITRE CUTTING CORNER CLAMPS

Accurate mitre clamping is provided by IRWIN® Record® Corner Clamps. The clamps have two countersunk holes for fixing to a wooden block, which can then be secured between the jaws of a bench vice. Thanks to the precision machined clamping surfaces and open design, these clamps are straight forward to operate and provide easy access for glueing and nailing.

FLOORING CLAMP

Designed to close up floor boards prior to nailing, this compact and robust clamp has two spring loaded cams which straddle the joist, holding the clamp firmly in position. Turning the handle then moves the shoe forward, pushing the floorboard into position. For standard 75mm (3") joists.
